Dear Malek Tawashy

RE: Letter of support for Northern Energy Capital's Solar energy feasibility initiative in Naujaat and Coral Harbor.

Qulliq Energy Corporation (QEC) wishes to express its support for the Northern Energy Capital (NEC) efforts to promote and advance clean energy in Nunavut. As the sole utility in Nunavut, QEC is looking at renewable energy opportunities to help reduce Nunavut dependence on diesel fuel in order to lessen QEC's environmental footprint.

QEC is planning to introduce an Independent Power Producer (IPP) program for Nunavut in the near future to complement the Commercial and Institutional Power Producer Program currently on offer.

Sincerely,

Rick Hunt
President and CEO
Qulliq Energy Corporation
