AGNICO EAGLE

- Summary of resolved technical comments
- Summary of resolved technical comments with commitments
- Summary of unresolved technical comments
- Questions and Discussion

Agnico Eagle | WHALE TAIL PIT EXPANSION PROJECT  
NIRB TECHNICAL MEETING – JUNE 11-13 2019

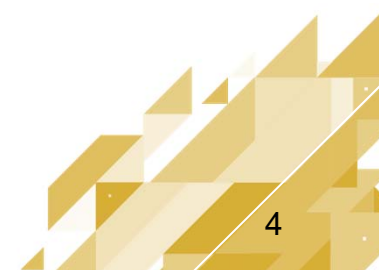

# INFORMATION REQUEST AND TECHNICAL COMMENT SUMMARY

## SUMMARY OF RESOLVED TECHNICAL COMMENTS WASTE MANAGEMENT

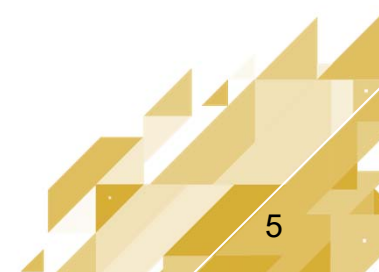

Item	Theme	Technical comment #	Technical comment subject
1.	Waste Management	CIRNAC-TRC#4	Conduct sensitivity analysis to assess the water quality impacts associated with 1% contamination of WRSF cover.  Specify the date at which the facility is predicted to reach field capacity.
2.	Waste Management	ECCC-TC19	Provide details and rationale for selection of climate change modeling scenario.  Provide details regarding how the projections of future climate change were used to inform closure and post-closure phase.
3.	Waste Management	KivIA-Aquatic-TC#2	Provide baseline data at the alternative discharge locations.  Clarify text in the FEIS addendum indicating the bioavailability of phosphorus.  Updated the water quality model to address concerns with phosphorus concentrations.

## SUMMARY OF TECHNICAL COMMENTS RESOLVED WITH COMMITMENTS – WASTE MANAGEMENT

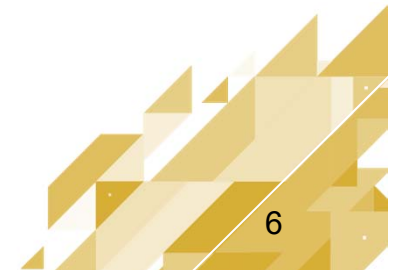

Item	Theme	Technical comment #	Technical comment subject
1.	Waste Management	KivIA-Aquatic-TC#19	<b>Response procedure for ammonium nitrate spill</b> - The Spill Contingency Plan will be updated to clarify this before production of emulsion at the Expansion site begins.  <b>Timeline: Prior to production of emulsion</b>

## SUMMARY OF UNRESOLVED TECHNICAL COMMENTS WASTE MANAGEMENT

Agnico Eagle considers that there are *no unresolved* technical comments for the Waste Management component.
