Subject: CG&T – Request for Screening – Second River Crossing, Aliarusik River, Pelly Bay / Kugarruk

The Nunavut Water Board received an application for a new permit on April 9, 2001 from Jivko Engineering on behalf of the Community Government and Transportation, Government of Nunavut for water use and waste disposal associated with the construction of a temporary bridge.

In accordance with Articles 12 and 13 of the *Agreement Between the Inuit of the Nunavut Settlement Area and Her Majesty the Queen in Right of Canada*, this project shall be screened by the Nunavut Impact Review Board to determine whether it has significant impact potential, and whether it requires review, before the application can be processed by the Nunavut Water Board.

I am faxing the application documents along with this letter.

In NIRB's letter dated February 27, 2001 with regards to Pelly Bay, there is indication that the crossing of Aliarusik River will require screening. Please verify this and let our office know when we can expect a screening decision for this project, so that we may set our submission deadlines accordingly.

Sincerely,

Rita Becker  
Licensing Administrator
