Thursday, March 5, 2015	3pm	Areva Final Hearing. Kiv – Maria Egerton, Jessie Oonark Gallery – Sheryl, Martha	Maria spoke to Sheryl (co-operator Jessie Oonark Art Gallery Baker Lake and Martha (artist and Baker community member) about the hearing that was taking place. Why it was taking place, where, and when and that they could attend any part and could speak during the community round table. Sheryl expressed here concerns about how mining changed the community in Manitoba where she grew up. The felt the introduction of strange men was a danger to young girls in the community. Martha expressed her desire for the children to have work, but was also concerned about how the Areva mine might change the community negatively with the introduction of income and use of drugs and lack of home care for children when parents were away working.
Saturday, March 7, 2015	1pm	Maria met a woman (Baker community member) selling caribou fur clothing at the community center during the hearing.	Maria explained that she worked for Kivalliq Energy, a uranium exploration company in permitting and environmental, and discussed some to the observations she collects on caribou as part of baseline studies and why (to assess caribou land use in the area and predict and mitigate potential impacts to caribou). Woman introduced her mother and explained that her mother had made the clothing and was born on the land around baker. Woman and Maria sat together during 2 and a half days of the hearing. The woman occasionally interpreted comments from community members and elders for Maria when they weren’t captured by interpreters.
Saturday, June 6, 2015	2:30 PM	Robert Janes (Mayor Rankin Inlet), Joseph Aupaluktuq (Mayor Baker Lake), Paul Kanayok (Chairperson HTC), Peter Alareak (KIA Director), Norman Attungala (KIA Director), Alex Ishalook (Chairperson HTC)	Letter to, from JW re: request for community meeting letter and community factsheet in English and Inuktitut
Monday, June 29, 2015	7- 9:15 pm	Rankin Inlet Hamlet community visit and presentation. Andy Berry presented, Maria Egerton assisted. In attendance: Robert Janes (Mayor Rankin Inlet),Craig Beardsall (KIA),David Kanayok, Sam Twyee, Roger Subqut, Jerome Tattuinee, Willie Alogut, Jack Kabuitok, John Ayaruaq, Levi Curley, Alex Sammurtok, 2 women who chose not to provide their names	Q - Woman 1 - How can you ensure that the Uranium you sell won't end up being used for weapons? Do you have any buyers? Will you be flying yellowcake out? It’s my understanding that if a plane carrying yellowcake crashed it would be an environmental disaster. A - Andy explained how Canadian Uranium is regulated by the CNSC A - Andy and Maria explained that we are an exploration company, that we are still a long way from selling or transporting yellowcake. Maria explained if and when the project ever became a mine, all aspects of it including whatever the proposed method of transportation of yellowcake would be, would have to go through a complete environmental review and related public hearings. Q – Jack - Does drilling release any radioactive particles to the air or soil? A - Andy explained that Kivalliq separates the hot drill cuttings from other drill muds and stores them in sealed drums. Q – Alex requested a paper copy of the entire presentation. Commented that the agreement with NTI was not favorable to the Inuit. He found the \$50,000 advance royalty payments and the \$1mil payment upon reaching stated resource level insufficient. A - Andy responded that Kiv has invested \$55 million within the IOL to date. That there are significant costs related to exploration that are not reflected in the presentation and that he could email him a digital copy of the presentation. Comments: Jerome commented that he had seen the camp the year before and it was very clean. Also that when the helicopter landed, they saw caribou grazing on the rocks and he was concerned about stepping on uranium rock. He recalled that Andy used the scintillometer to measure radioactivity.

Tuesday, Jul 25, 2023	10am	Combined Meeting of HTO and Hamlet Councillors in Council Chambers Baker Lake - Mayor, Richard Aksawnee Baker Lake - ASAO, Robert Seeteenak Lake - Councillor, Becky Tootoo Councillor, Joedee Joedee Councillor, Lars Qaqqaq Baker Lake - Councillor, Francis Iyago Lake - HTO Chair, Harold Putumiraqtuq Lake - HTO Vice Chair, Eva Elytook Baker Lake - HTO Director, John Etegyoyok Lake - HTO Director, Paul Kabloona Secretary and Summer student attached to HTO Translator Latitude Uranium - CEO, John Jentz Latitude Uranium - VP, Nancy Normore APEX Geoscience - Philo Schoeman	Baker Baker Lake - Baker Lake - Baker Baker Baker HTO Mayor thanked Latitude Uranium for making the site visit possible and the opportunity to see what exploration on site entails. Nancy gave a short presentation and also an update and scope of exploration for the rest of the Summer. Councillors asked if it will be possible to construct an ATV trail between Nutaaq Camp and the airstrip. Council was informed that a 2012 report did describe such a plan but due to very strict rules regarding land/tundra disturbance as per the current Land Use permit, such a trail will not be possible. Councillors were also concerned about the amount of noise generated by the helicopter in use between the airstrip and camp. Council was reminded that a full time Wildlife Observer is stationed in camp at all times and if caribou is approaching too close, flight mitigation is conducted by avoiding the caribou or stopping all flights until the caribou has moved away. Since no land disturbance is allowed, helicopter use is the only way to conduct Summer travel. Council expressed the need for a Community Rep/contact person position to be established to keep the community informed of plans and developments on the Angilak Project site. Council expressed great concern for future job opportunities in Baker Lake with the looming closure of the nearby Agnico mine. Latitude Uranium undertook to keep employing people from Baker Lake and also since employing people from Baker Lake during 2022 and 2023 were a very good experience.
