RE: David Burgess – Glacier Mass Balance and Pollution Studies in the Canadian High Arctic

Dear Ms. Payette,

Transport Canada (TC) appreciates the opportunity to participate in the Part 4 Screening process for the above mentioned project proposal as requested in your February 12, 2009 notification. TC is responsible for transportation policies and programs that promote a safe transportation system, ensuring that they work effectively and in an integrated manner.

Transport Canada has conducted a cursory review of the project proposal in accordance with our departmental mandate pursuant to the *Navigable Waters Protection Act*. Our review consisted of the following documents:

- NIRB Notice Part 4 – Screening and Comment Request
- Non-Technical Project Proposal Description of "Glacier Mass Balance and Snow Pollution Studies in the high Arctic" – English Summary
- Related Maps

I have attached "The Comment Form for NIRB Screenings", however Transport Canada's Navigable Waters Protection Program (NWPP) has indicated that the project as proposed is of no concern and Transport Canada has no interest in the project.

Should you have any questions pertaining to these comments, please contact me by telephone at (204) 983-5857 or email at sophia.garrick@tc.gc.ca

Regards,

Sophia Garrick
Environmental Officer

Canada

COMMENT FORM FOR NIRB SCREENINGS

The Nunavut Impact Review Board (NIRB) has a mandate to protect the integrity of the ecosystem for the existing and future residents of Nunavut. To assess the environmental and socio-economic impacts of the project proposal, NIRB would like to hear your concerns, comments and suggestions about the following project proposal application:
