TITLE: Chidliak Project Environmental Baseline Program

OBJECTIVES OF RESEARCH:

The Chidliak Project is located on the Hall Peninsula of Baffin Island in the Qikiqtani Region of Nunavut. The centre of the project is 120 kilometers northeast of Iqaluit and 200 kilometers south of the Hamlet of Pangnirtung. Peregrine Diamonds Ltd. commenced the project in 2008 and in the 10 subsequent years a total of 71 kimberlite volcanos ("kimberlites") were discovered. Kimberlites are known to contain diamonds. Environmental baseline studies are required for the preparation of an environmental impact statement. In 2025 environmental baseline work will continue on the Chidliak Project.

TERMS & CONDITIONS:

The holder of the license will be bound by the terms and conditions of the Nunavut Impact Review Board Screening Decision Report (NIRB File # 09YN041) and the Department of Culture & Heritage archaeological sites terms and conditions. These terms and conditions will form part of this license.

DATA COLLECTION IN NU:

DATES: April 12,2025 to December 31,2025

LOCATION: Hall Peninsula

Scientific Research License 01 003 24R-M expires on December 31,2025

Issued at Iqaluit, NU on November 27, 2024
