

**Commander Resources Ltd.**  
**Summary of 2010 and 2011 Storm Copper Project Exploration Activities Somerset Island, NU**

**2010 Activities:**

No exploration work was completed

**2011 Activities:**

**Ground Operations:** none

**Camp Sites:**

Installation of camp will proceed ground work in 2012 or 2013 only if a full season of work is planned.  
 Commuting to the property on a daily basis from Resolute is a reasonable and cost effective alternative for a short work program.

Name	Location	Status	Comments
Storm Copper	73.67 N, 094.33" W	Permitted	Not utilized; no tents or other structures installed

**Drilling:** No diamond or percussion drilling completed

**Ground Exploration Geological:** None

**Ground Exploration Geophysical:** None

**Airborne Geophysical Surveying:**

Geotech Ltd., Aurora, Ontario

Survey crew and helicopter based in Resolute, daily ferries to the property between July 6<sup>th</sup> –24<sup>th</sup>

Total survey 3969 line km of Magnetic and VTEM survey completed

Date	Activity	Location
July 2-5	Standby	Resolute Bay
July 6-10	Surveying	Storm Property
July 11-12	Standby	Resolute Bay
July 13	Surveying	Storm Property
July 14	Standby	Resolute Bay
July 15-20	Surveying	Storm Property

**Fuel Storage:**

Project fuel is stored at Resolute Bay and at the Aston Bay Airstrip (Lat 73°41.27'N Long 94°47.34'W)

Fuel Berms: supplied by Raymack Environmental Services, Nanaimo, BC

Type	Container Type (Fall 2011)		Fuel Transfer	Spill Prevention
Aviation	205 litre Drums	55 full, 65 empty	electric pump	Fuel Spill Contingency Plan in place; berms & drip trays to be installed as necessary
Diesel	205 litre Drums	20	electric pump; hand wobble pump	
Gas	205 litre Drums	0	hand wobble pump	
Propane	100 lb tanks	not documented		

### Fixed-Wing Flights: Resolute to Aston Bay Airstrip

Aircraft	Carrier	From-	Flights	Dates	Purpose
DHC-6/30	Kenn Borek Air, Iqaluit	Resolute to Aston Bay return	1	May 26	Personnel, skidoos, sleds, fuel
Buffalo Twin Otter	Kenn Borek Air, Iqaluit	Hall Beach to Resolute	1	May 27	Fuel
Buffalo Twin Otter	Kenn Borek Air, Iqaluit	Resolute to Aston Bay return	2	May 27	Personnel & Fuel
Buffalo Twin Otter	Kenn Borek Air, Iqaluit	Resolute to Aston Bay return	1	May 29	Personnel & Fuel
Buffalo Twin Otter	Kenn Borek Air, Iqaluit	Resolute to Aston Bay return	5	June 1	Personnel & Fuel

### Helicopter Flights:

Geotech Aviation Astar 350B3

Field Base	Storm Property	
Resolute Bay	July 6-10, 13, 15-20	Actual hours not documented

### On-going Remediation:

Item	Procedure
Garbage	Burnables incinerated, non-burnables backhauled to Resolute for disposal
Fuel Containers	Backhauled to Resolute for disposal

### 2012 Planned Work:

In 2011, Commander Resources secured a joint venture on the Storm Property with Aston Bay Ventures who will be overseeing future work programs. The 2012 work program will comprise ground staking mineral claims, review of existing core stored at the Aston Bay airstrip, completing a GPS survey of previous drill hole locations and limited prospecting.

Fixed-wing aircraft will transport personnel and supplies to the Aston Bay airstrip on an as need basis. A helicopter based at Resolute Bay will be used on a daily basis for crew setouts and pickups.

All work will be conducted in accordance with the Commander Resources Ltd. operational plans as outlined in the company's Health & Safety Manual, Fuel Spill Contingency Plan and Final Abandonment and Restoration Plan.

### Wildlife:

Wildlife sightings very limited during the 2011 field program. One muskox reported but no further details are available.
