Introduction

In June 2014, Agnico Eagle Mines Ltd (Agnico Eagle) signed an option agreement with Aura Silver Resources Inc. to recommence drilling on the Greyhound Property. This option agreement allowed Agnico Eagle to gain interest in the Project following exploration activities and for which Agnico Eagle is the project operator. The Greyhound property is located 40-50 km northwest of the Hamlet of Baker Lake and is transected by the Meadowbank mine All Weather Access Road.

Monitoring and reporting requirements

The Proponent shall maintain a record of wildlife observations while operating within the project area. The reports should include locations (i.e., latitude and longitude), species, number of animals, a description of the animal activity, and a description of the gender and age of animals if possible.

No wildlife was noted in 2022.

Work performed

No holes were drilled in 2022 in the area covered by this decision but mineral prospection was done on foot with helicopter support.

Work Planned 2023

In 2023, no exploration activities are planned to be conducted on this mineral property.
