B. Parcel Description

General Description of Parcel (ie: hilly or flat, tree cover, soil type). If the parcel is surveyed, please indicate lot, block, group, QUAD, CLSR and LTO numbers. If unsurveyed, state size of parcel, NTS MAP Sheet Number (QUAD Number) and general location.

The proposed Izok Mine site is described in Section 2.4 of the Izok Corridor Project Proposal Section.

The proposed Izok Mine is located 260km southeast of Kugluktuk, NU (the closest community to the proposed project). The parcel of land that is being applied for includes the Izok Mine (pits, waste storage areas access roads), processing plant, water management facilities, operations camp and associated facilities, as well as a buffer area to allow for adjustments in project design, quarries and borrow areas, and construction laydown areas (see Figure 1).

C. Project Location

Provide a National Topographic System (NTS) map at a scale of 1:50,000 that indicates the following features:

- | | |
|---|---|
| <input type="checkbox"/> Approximate location of land under application or indicate the kilometre post of road/highway, if applicable | <input type="checkbox"/> Proposed new access routes |
| <input type="checkbox"/> Nearby water bodies | <input type="checkbox"/> Use of adjacent land |
| <input type="checkbox"/> Distance to nearest community | <input type="checkbox"/> Co-ordinates |
| <input type="checkbox"/> Existing access if any | |

Indicate approximate area applied for in metres:
(Metres X Metres)

Indicate approximate hectare size:
Hectares (metres x metres divided by 10000 = hectares)

Mandatory requirements: (*)

1. Outside of Community Boundaries

*NTS Map Sheet No.	*Map or GPS Longitude and Latitude Co-ordinates: (Indicate Degrees, Minutes and Seconds)		
	North Latitude	West Longitude	
	65° 37' 21"	112° 47' 38"	See Figure 1 (attached)
Map or GPS UTM Co-ordinates	GPS Map Datum (ie: NAD 83, NAD 27)		
Parcel Corner 1 Eastings	Northings	Parcel Corner 2 Eastings	Northings
Parcel Corner 3 Eastings	Northings	Parcel Corner 4 Eastings	Northings
Parcel Centre Point Eastings	Northings		

2. Inside Community Boundaries (Provide Community Mapping at a scale of 1:5,000 scale or less)

*Community Name

Draw a detailed site sketch ON THE LAST PAGE OF THIS APPLICATION FORM of your proposed development. Exact dimensions of buildings are not necessary. Provide the approximate dimensions of buildings etc. shown within the parcel applied for. Your sketch must include:

- Boundaries, approximate dimensions in metres or feet
- Location of water bodies, lake front, stream bank etc.
- Location or proposed buildings and structures
- North Arrow Indicator
- Waste disposal, fuel storage, docks and breakwaters area, etc.
- Water bodies to be used for transportation and/or recreation
- Access routes, trails, paths, roads
- Scale
- Existing facilities

Measure the distance of the boundaries of the parcel of land being applied for. When locating the parcel of land applied for, it is important that the location is defined by distance measurement and possibly compass bearings in relation to some known point or land feature.

IE: Distance to an existing survey posts of other property in that area, highway survey monuments, the shorelines of water bodies (lakes, rivers, creeks) and kilometre posts.

SAMPLE SKETCH

SCALE: 1:800

Provide a brief description of the capital costs for your project.

Capital costs will be estimated in the Project Feasibility Study that is currently in preparation.

Site Preparation	Materials for Initial Construction	Construction Costs
------------------	------------------------------------	--------------------

Are there any wastes produced by this use?

Yes No ► If Yes describe the type of waste, the volume of waste and the disposal method(s) to be used.

The handling of mineral waste is described in Section 2.4.6 of the Izok Corridor Project Proposal.

How do you plan to dispose of:

Liquid Waste (grey water, sewage)

Solid Waste

See Sec. 2.4.9.2 Sewage Treatment and 2.4.9.3 Grey Water...

see Sec.2.4.9.4 Solid wastes Treatment and Discharge

If you have specific waste treatment equipment in mind, please describe it

Details of the waste treatment equipment will be provided in the draft Environmental Impact Statement being prepared for the Project.

Are there any hazardous materials to be stored other than consumer goods?

Yes No ► If Yes, please list the type, estimated volume, quantities and storage method(s).
*Hazardous materials as defined in the *Transportation of Dangerous Goods Act and Regulations*.

The type, estimated volume, quantities and storage methods for hazardous goods will be described in detail in the Hazardous Waste Management Plan that will be developed for the Izok Mine.

H. Resource Capability

What other general resource activities are taking place on or near your proposed project area? E.g.: Does the area involve a trap line or any mining activity? Is it an access point for resident anglers, hunters, campers, etc.? Is there a registered mineral claim on the project area?

The proposed project area does not cross any traplines. There are seasonal snowmobile trails near the proposed Izok Mine. These trails connect to the Tibbett to Contwoyto Winter Road. No commercial land based activities are located in the near vicinity of the mine. All known use of the area is being studied as part of the DEIS preparation.

Do you see any activity listed in your answer to the above affecting your operation, or is your operation a conflict to them? If so, how?

MMG is studying potential interactions with other land tenure holders and land users as part of the process of preparing the draft Environmental Impact Statement for the Project.

Do you plan on using your facilities for other than the applied for purpose?

Yes No ► If Yes, briefly describe alternate use.

I. Fees

Land Application Fee (\$150.00) (Except Government Agencies)	▶	\$150.00
GST for all Applications (Except Residential Uses)	▶	\$7.50
Total Fees Submitted with Application	▶	\$157.50

▶ Please make Cheque/Money Order payable to: "Receiver General for Canada"

NOTE: This application will be subject to an environmental review and consultation process. As a result of this process, if it is determined that your application must be refused, the application fees submitted with your application will not be refunded.
