Re: **Acknowledgement of Project Update and Request for Notification of Intended Re-Engagement**

Dear Sahba Safavi:

Thank you for the recent update provided to the Nunavut Impact Review Board (NIRB or Board) on December 6, 2016 regarding MMG Resources Incorporated's (MMG) "Izok Corridor Project" proposal, NIRB File No. 12MN043. The update and all information associated with the NIRB's Review of the Izok Corridor project can be accessed online at www.nirb.ca using any of the following search criteria:

- Project Name: Izok Corridor
- NIRB File No.: 12MN043
- Application Number: 124150

The NIRB continues to request that MMG provide updates on an annual basis to confirm whether the company expects to re-engage the assessment process by making the required submission to the NIRB for the next phase of the Review process. For planning purposes and to ensure the required funding is in place to facilitate the next steps in the Review process, the Board advises that a minimum of three (3) months' notice will be required pre-submission to ensure that the required resources and capacity is in place to address any forthcoming submission and to reactive the Review process in a timely manner.

If you have any questions or require clarification on the NIRB's processes and associated requirements, please contact me directly at (867) 983-4611 or tarko@nirb.ca.

Sincerely,

A handwritten signature in cursive script that reads "Tara Arko". The signature is written in black ink on a light-colored, slightly textured background.

Tara Arko
Director, Technical Services
Nunavut Impact Review Board
