AFFILIATION:

TITLE: Arctic Freshwater Biodiversity in Cambridge Bay.

OBJECTIVES OF RESEARCH:

This work continued the research we had initiated with the Canadian High Arctic Research Station (CHARS) and was done under the NSRI license # 04 004 17R-M. The 2017 research also contributed to our Polar Knowledge Canada supported project "Ecosystem Health of Arctic Freshwaters" and to the Circumpolar Biodiversity Monitoring Program (CBMP) that has been created in collaboration with all eight circumpolar countries. Each country aims to follow the same sampling protocol with the aim to provide high quality and comparable information of different environments in the Arctic and their biodiversity.

TERMS & CONDITIONS:

The holder of the licence will be bound by the terms and conditions of the Nunavut Impact Review Board Screening Decision Report and the Department of Culture & Heritage archaeological sites terms and conditions. These terms and conditions will form part of this licence.
