Do you have any suggestions or recommendations for this application?

- HTO feels it is important for the results of the time lapse cameras to be shared with the Board of Directors.
- HTO strongly feels conversations need to take place with HTO + local hunters to compare information collected
- Not knowing what the set up will look like. We are limited to commenting. this information needs to be shared.

Do you support the project proposal? Yes ☒ No ☐ Any additional comments?

- for this year timing is OK due to lots of snow + rough ice, if this will continue into other years; camera set up would definitely need to be earlier
- Not enough information would be collected in year.
