Subject: RE: 13UN037 - requesting update on NIRB's IR

Ublukkut Megan,

On August 3, 2016 the NIRB sent Information Request #2 to GN-CGS for outstanding materials required for screening of your file NIRB File No. 13UN037 or an alternative submission date of these materials by Aug 10. As there was no formal submission date submitted for the outstanding information, I left a telephone message on Monday Aug 22 at 10:40 Rankin Inlet time and on Tuesday August 23, 2016 sent the email below requesting an update on a date of submission.

As there has been no response to either inquiry, the NIRB is requesting an update from CN-CGS by **Wednesday August 31 at 5:00 pm** on the date of submission of the outstanding materials for the screening of this file or the Board may suspend or terminate the assessment activities of the proposed project pursuant to subsection 144(2) of the NuPPAA.

Quana for your attention in this matter.
Kelli

Ublukkut Megan,

I left you a message yesterday and I thought I would follow up this afternoon via email. On August 3, 2016 the NIRB distributed a second information request regarding the outstanding information for the project proposal that was submitted June 13, 2016.

Would be able to give me an update on when you expect to be submitting the materials as the NIRB had requested it by August 10, 2016 and we have not heard from either you or anyone in your department.

Quana and have yourself a great afternoon, Megan.
Kel
