| Disturbance of marine mammals. | |
| Do you have any suggestions or recommendations for this application? | |
| DFO recommends that watercraft should survey the area for marine mammals to avoid disturbing them. If marine mammals are encountered, and remain in the area, effort should be made to avoid disturbing them by rerouting, slowly navigating around their location at a reduced speed and maintaining their distance. The watercraft should not accelerate within 400m of the marine mammals. The marine mammals should not be approached closer than 100m at any time. | |
| Do you support the project proposal? Yes <input type="checkbox"/> No <input type="checkbox"/> Any additional comments? | |
