Hello Ms. Barker and Ms. Gudmundson,

We have received your November 1st correspondence regarding the future remedial actions at a former Iqaluit metal dump. The City has no concerns with this at this time and welcomes this work. Can you please keep us posted on the progress?

Similarly, we see this as a 'good news storey'. Is the Federal Government intending on issuing a press release relating to this project?

Best regards,

Mélodie

Subject: Notice of Upcoming Remedial Actions at Former Iqaluit Metal Dump

Please see attached letter regarding upcoming remedial work that Transport Canada plans to conduct at the former Iqaluit Metal Dump.

A hardcopy will follow by mail.

Sincerely,

Jackie Barker
