ᑭᓪᓂᓄᓐ: John Tugak signed a mineral exploration agreement with Nunavut Tunngavik Incorporated to obtain the rights on some mineral properties located mostly west of the Whale Cove community and North and Northwest of the Arviat Community. John Tugak signed on June 30, 2017 an agreement with Agnico Eagle Mines Limited (Agnico Eagle) to continue exploration activities on one of his properties, the property Huckleberry-0001. This property is located on Inuit Owned Land surface and subsurface, approximately 65 km mostly west of the Whale Cove community. Exploration activities, such as prospecting, have already been authorized by Nunavut Planning Commission (NPC), Nunavut Impact Review Board (NIRB) and Kivalliq Inuit Association (KIA). The present application is to permit the installation of an exploration camp on the Huckleberry-0001 property, to permit additional exploration activities including geophysical surveys (airborne and ground support), diamond drilling, rab drilling, trenching and to permit the use of a winter access from the Meliadine area and from Whale Cove up to the Huckleberry-0001 property. Agnico Eagle will manage the exploration activities on this property and will be responsible for its activities. The exploration camp is planned to be installed at the same location where the former exploration camp was installed in the area of the closed portal.

ᐃᐱᐱᐅᑦ: John Tugak avait signé une entente avec le Nunavut Tunngavik Incorporated afin d'obtenir les droits minéraux sur certaines propriétés principalement localisées à l'ouest de la communauté de Whale Cove et au nord et nord-ouest de la communauté d'Arviat. John Tugak a signé une entente avec Les Mines Agnico Eagle Ltée. le 30 juin 2017, afin de poursuivre les travaux d'exploration sur une de ses propriétés, la propriété Huckleberry-0001. Cette propriété est localisée sur des terres Inuit de surface et sous-terre et se situe à une distance d'environ 65 kilomètres à l'ouest de Whale Cove. Des travaux d'exploration tel que la prospection avaient déjà été autorisés par la commission d'aménagement du Nunavut, par la commission du Nunavut et par l'association Inuit du Kivalliq. L'application présente est produite afin de permettre l'installation d'un camp d'exploration sur la propriété Huckleberry-0001, de permettre certains types de travaux d'exploration additionnels à ceux déjà autorisés tel que de la géophysique à l'aide de supports aérien et terrestre, le forage au diamant, le forage à l'aide d'une drill rig, le décapage ainsi que de permettre l'utilisation d'un accès d'hiver partant du secteur de Meliadine et du secteur de Whale Cove jusqu'à la propriété Huckleberry-0001. Les mines Agnico Eagle Ltée. prendront la charge de ces activités. Le camp est prévu être installé dans le même secteur que l'ancien campement et du portail.

ᐱᓐᓇ ᐱᓕᐅᐱᓐ ᖃᓄᐱᓐᐱᓐᓇᓂᐱᓐᓇᓂᐱᓐ: ᓄᓇᐱᓐ ᖃᓄᐱᓐᐱᓐᓇᓂᐱᓐ

This area has been worked in the past with drilling and with an underground development. A camp was present on site and remaining material and waste is present.

ᐱᓐᓇ ᐱᓕᐅᐱᓐ ᖃᓄᐱᓐᐱᓐᓇᓂᐱᓐᓇᓂᐱᓐ: ᐱᓐᓇᓂᐱᓐᓇᓂᐱᓐᓇᓂᐱᓐ

The area is located as near as 20 kilometers from the Hudson Bay and is located in an area where many water bodies are present.

ᐱᓐᓇ ᐱᓕᐅᐱᓐ ᖃᓄᐱᓐᐱᓐᓇᓂᐱᓐᓇᓂᐱᓐ: ᐱᓐᓇᓂᐱᓐᓇᓂᐱᓐᓇᓂᐱᓐ-ᐱᓐᓇᓂᐱᓐᓇᓂᐱᓐᓇᓂᐱᓐ

The project is located near of the Whale Cove, Rankin Inlet and Arviat communities.

ᓇᓇᓇᓂᐱᓐᓇᓂᐱᓐᓇᓂᐱᓐᓇᓂᐱᓐ ᐱᓐᓇᓂᐱᓐᓇᓂᐱᓐᓇᓂᐱᓐ ᖃᓄᐱᓐᐱᓐᓇᓂᐱᓐ ᐱᓐᓇᓂᐱᓐᓇᓂᐱᓐᓇᓂᐱᓐ

Potential impacts on caribou will be limited by applying mitigation measures described in the Wildlife Protection and Response Plan and by the application of the authorizations conditions. Potential impacts on archaeological sites will be limited by an archaeologist field assessment and the respect of protection buffers. Potential impact related to spills will be limited with the application of the Spill Contingency and Response Plan and the use of secondary containments. Potential impact on the water will be limited with the application of conditions that will be present in the future water licence that needed to conduct the proposed activities.

Cumulative Effects

The proposed activities area planned to be low scale at this time. Future development (example mining), would have to be assessed in an Environmental Impact Statement (EIS).
