**Subject:** "Huckleberry Exploration" project proposal - DFO comments

Hello,

I'm contacting you on behalf of Fisheries and Oceans Canada regarding the Huckleberry Exploration project proposal.

In order for DFO to evaluate the potential impacts of this project on fish and fish habitat, we require the following information:

- GPS coordinates for the sites of water taking
- Information regarding the source of the water (i.e. is it groundwater? From lakes?)
- Any information available on the fish and fish habitat of the waterbodies/watercourses where the water will be taken from
- Total volume and/or instantaneous flow measurements for the waterbodies/watercourses from which the water will be taken

Thank you,

**Michael Bedford**
