Subject: Re: Before Igloolik Project

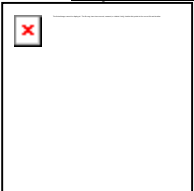

Hello, Mr. Morrison. Thanks for your e-mail, and my apologies for not noting this in my application. Unless there is a provision against it, all non-toxic materials will be burned, and all other materials (plastics, etc.) will be brought back to Igloolik for disposal in the community landfill. I hope this is enough detail; if you require any additional information, please don't hesitate to contact me.

Best regards,

Sean

Dr Desjardins, before the Nunavut Impact Review Board can begin screening and assessing your project, we need a clarification: what are you doing with the garbage and assorted (non-sewage) waste that would be generated at the camp?
