Le Soleal - 2018 - Defined cruising area for Kangerlussuaq, Greenland to Nome Alaska cruise	Marine Based Activities	Crown	During the planned cruise itinerary of the small cruise vessel Le Boreal, there is a planned cruise into Queen Maud Gulf on Sept 7, 2018. The Migratory Bird Sanctuary is located within this area, covering nearly 63,000 square km of land and sea, making it the largest protected area within Canada.	The Queen Maud Gulf Bird Sanctuary (MBS) provides essential habitat for geese, and other migratory birds. Other wildlife make use of the vegetation rich river valleys. The land within the MBS has been, and continues to be identified by Inuit as a place of cultural significance and the area is known to harbour numerous archaeological features.	The nearest community is Cambridge Bay, located approximately 250 km away.

Marine Based Activities	Anaagun (inuin anaaguin)	TBD	Retained on board the vessel until reach authorized waste company	Vessel has the most advanced waste water and waste management system. No waste or waste water is discharged at sea.

Avatiliriniqmut Ayurhaulingit:

Vessel will be transiting through wildlife habitats and passengers and crew will be landing ashore in areas where wildlife may be present. This activity could be indirectly disruptive to certain species. Direct contact and interaction with wildlife will be avoided. All activities the vessel, passengers, and crew engage in will be environmentally conscious and intended for the purpose of sightseeing only. No manmade structures or materials will be left in wildlife areas.
