Re: Notice of Screening for University of Waterloo's "Stream occupancy of young-of-year Arctic grayling (*Thymallus arcticus*) and the associated impact from the wastewater treatment facility in Baker Lake" Project Proposal

Dear Ms. Otokiak,

On July 10, 2018 the Nunavut Impact Review Board (NIRB) invited parties to comment on University of Waterloo's "Stream occupancy of young-of-year Arctic grayling (*Thymallus arcticus*) and the associated impact from the wastewater treatment facility in Baker Lake" project proposal. Crown-Indigenous Relations and Northern Affairs Canada (CIRNAC) has reviewed the project proposal and related documents, and has no comments or additional terms and conditions to offer at this time pertaining to the NIRB's request.

CIRNAC appreciates the opportunity to provide comments and looks forward to working with the NIRB and the Proponent throughout any further review phases related to this project. Should you have any questions, please contact Julia Prokopick at (867) 975-4567 or by e-mail at julia.prokopick@canada.ca.

Sincerely,

Felexce Ngwa
A/Manager, Impact Assessment
