Subject: FW: CAM-3 location

Good Morning Mr. Scholz,

I just spoke to Ms. Lear about this. She found an NWB water board licence with the correct coordinates for the CAM-3 site. The [current water licence](#) states the site's coordinates as: Latitude: 68° 48' 38"N Longitude: 93° 26' 01"W.

As below the NIRB website's coordinates seem to contain an error putting the CAM-3 site at 96° W instead of 93° W. The error may have occurred when the file was initially brought into the on-line system.

The NIRB file cannot be corrected without screening the project again.

Please let me know your thoughts on this,
Will

Good morning William,

I am sorry but no there is no way to update the information on the project application without amending the project and amendments are referrals that are received by the Nunavut Planning Commission.

Best regards,

Subject: CAM-3 location

Hello Natasha,

The NIRB Public Registry shows the location for the NWS CAM-3 (NIRB file number 03DN117) at approximately 68°47'34"N, 96°26'25"W. The site is located at 68°47'34"N, 93°26'25"W.

Is there a way to update the NIRB public registry?

Thanks,
Will

Regarding application 148955, the NIRB public registry shows 03DN117 in a different location than the one shown in your application.

Subject: RE: 148952. 148955, 148954, 148957

Good Morning Mr. Scholz,

I've added the requested information into the Project Description and re-submitted the CAM-M application (NPC file number 148952). If this file is now complete, I'll submit the remaining files. If there are additional changes required, I'll update all of the files before I submit them again.

I hope that this is acceptable.

Regards,
Will

Ok I will return all files to you so that you can add:

1. a line to the project description stating that this is a renewal without modification of a water license
2. the applicable NIRB file number
3. Any NIRB licenses.

Thanks!

Peter,

Yes, that is correct. CCd is Will Wyman, Raytheon Environmental Services Officer. He is handling the license renewal documents and can provide the further information you require.
