Subject: research postponed

dear goump, rick, jamal, and the nirb review board,

due to the covid-19 pandemic, the research i was supposed to conduct on south baffin summer 2020 will need to be postponed to 2021.

goump, i will need to file another amendment in the npc system to change the dates, and i will have to update the research license, accordingly, jamal. rick, if you could please release my 2020 accommodations reservation at nri, i would appreciate that. i'm assuming i will need no further review with nirb to move the research to 2021.

i'm hoping that the third attempt next summer will finally be successful!

thank you, all.
