Dear Cory,

I enclosed with this email our reply to the clarifications you asked on June 7 for the File No.: 19YN029 for the "Diversity of pelagic primary producers in coastal habitats and the potential for harmful blooms in Eastern Canadian Arctic, with a focus near Iqaluit, Nunavut" project.

Sincerely,

Kaven Dionne

Dear Cory,  
You will receive the information tomorrow.  
Thanks for your help,  
Michel

Dear Kaven,

I am following up to see if you have a timeline of when you will be able to provide this information. The NIRB is looking to move forward with the next steps of the assessment; however, we need this updated information in order begin.

Please provide a time estimate as soon as possible.

Sincerely,  
Cory

Dear Kaven Dionne,

My name is Cory Barker and I am the Technical Advisor with the Nunavut Impact Review Board who will be working on your application for Michel Gosselin's "Diversity of pelagic primary producers in coastal habitats and the potential for harmful blooms in Eastern Canadian Arctic, with a focus near Iqaluit, Nunavut" project. I have begun my review of your application and I will require further clarification on a two items.

1. What is the size of boat that you plan to charter from Polar Outfitting?
2. Understanding that there is a very minimal amount of sampling being done, are you able to provide more information on the site history for your 3 sampling locations?

If you could kindly provide these clarifications to me via email, I will have the email string uploaded to the public registry as a clarification to your already submitted application.

Sincerely,  
Cory
