TITLE: Kivalliq Hydro-Fibre Link Baseline Research

**OBJECTIVES OF RESEARCH:**

The Kivalliq Hydro-Fibre Link is a renewable energy and broadband internet infrastructure project led by the Kivalliq Inuit Association ("KIA") of Nunavut. The Project's vision is to build a 1,200km high-voltage electricity transmission line, which will connect communities of the Kivalliq region of Nunavut (Arviat, Baker Lake, Chesterfield Inlet, Rankin Inlet and Whale Cove) to the Manitoba electricity and fibreoptic grids. A socio-economic and Inuit Qaujimagatuqangit (IQ) research program will continue to help define the socioeconomic baseline conditions in Kivalliq communities and identify and/or confirm components of the physical, natural, and human environment that should be included in a future impact assessment.

**TERMS & CONDITIONS:**

The holder of the licence will be bound by the terms and conditions of the Nunavut Impact Review Board Screening Decision Report and the Department of Culture & Heritage archaeological sites terms and conditions. These terms and conditions will form part of this licence.

**DATA COLLECTION IN NU:**

DATES: January 1, 2024 to December 31, 2024

LOCATION: Arviat, Baker Lake, Chesterfield Inlet, Rankin Inlet, Whale Cove

Scientific Research License 03 003 24R-M expires on December 31, 2024

Issued at Iqaluit, NU on December 15, 2023
