Re: Fisheries and Oceans Canada – Small Craft Harbours’ “Clyde River Small Craft Harbour Development” – 2023-24 NIRB Report

Dear Mia Otokiak:

On October 18, 2021, Nunavut Impact Review Board (NIRB) completed the review of the Clyde River Small Craft Harbour Development project proposal and issued a Screening Decision Report (SDR) to Fisheries and Oceans Canada- Small Craft Harbours (DFO-SCH).

As identified in the *Monitoring and Reporting Requirements* section of the SDR an Annual report of construction activities is due March 31, 2024.

In 2023, the contractor made some significant progress on the project, maintaining the project schedule. This work included; quarrying operations (including blasting, sorting and crushing), hauling rock, construction of the dredge spoil area, construction of 70% of the southwest breakwater, tie-back wall vibratory pile driving, a small amount of dredging and a small segment of the northeast breakwater. The attached annual report will summarize the activities conducted during construction, and confirm the compliance with the monitoring and reporting requirements.

If you have any questions with the content of this letter, please contact Chris McDermid at (431) 335-7530 or by email at Chris.McDermid@dfo-mpo.gc.ca.

Yours sincerely,

Eleanor McEwan, P. Eng.
Senior Project Engineer
Small Craft Harbours Branch
Fisheries and Oceans Canada
