

The following table represents a list of commitments made for Agnico Eagle's Meliadine Extension Proposal. Rows that have been highlighted in grey indicate a commitment has been fulfilled and/or considered resolved.

Table 1: Meliadine Extension – List of Commitments

No.	Stage Commitment Made	Party Responsible for Commitment	Raised in Item#	Commitment	Commitment Status / Timeline	Form of Submission	Agnico Eagle Status of Commitment Resolution
1.	Information Requests	Agnico Eagle	CIRNAC-IR-14	Agnico Eagle commits to update the 2019 Analysis of the Risk of Temporary Mine Closure (Term and Condition No. 90 of Project Certificate No.006) in the annual report to reflect updates based on Meliadine Extension.	Following issuance of Project Certificate Amendment	Annual Report	Immediate resolution was not required for this commitment but will be completed per the agreed timeline; consider resolved for purposes of status update
2.	Information Requests	Agnico Eagle	HR-IR-1	Agnico Eagle commits to meet with Health Canada to confirm understanding of the Meliadine Extension and associated topics received from Health Canada.	Complete Meeting held October 12, 2022	Meeting notes and PowerPoint slides	Resolved; commitment complete
3.	Information Requests	Agnico Eagle	ECCC-IR-8	Agnico Eagle commits to address net-zero plan and carbon sinks during the NIRB technical review stage.	Complete	Technical Comment Submission	Resolved; commitment complete
4.	Information Requests / Technical Comments	Agnico Eagle	NRCAN-IR-19 NRCAN-TRC-08	Agnico Eagle commits to evaluate models using suitable data that have been acquired from new thermistor cables installed in the vicinity of the Discovery deposit through the Type A Water Licence Amendment.	December / January	Water Licence Amendment Application	Resolved; commitment complete
5.	Technical Comments	Agnico Eagle	KivIA-TRC-01 KivIA-TRC-02 SDFN/NDFN-TC-01 SDFN/NDFN-TC-03 SDFN/NDFN-TC-04	Agnico Eagle commits to address many caribou topics raised by KivIA, GN, and SDFN/NDFN during the Meliadine Extension NIRB process at the Meliadine TAG including: - Definition of deflection - Caribou movement and monitoring (around windfarm, airstrip, and roads), including noise levels - Zone of Influence around windfarm - Mitigation markings of Discovery waterline	Commitment no longer applicable as the wind turbines will be shut down during caribou migration	No longer applicable	Resolved; Deflection, zone of influence, and mitigation markings discussed during caribou workshop. Caribou movement and monitoring provided as part of May 23 submission
6.	Technical Comments	Agnico Eagle	KivIA-IR-04 KivIA-TRC-03 GN-TRC-09 GN-TRC-10	The Windfarm Management Plan will be reviewed with the TAG and updated prior to the construction of the windfarm, if required.	Prior to construction of windfarm	Windfarm Management Plan	Resolved; updated Windfarm Management Plan with inclusion of adaptive management thresholds provided as part of May 23 submission
7.	Technical Comments	Agnico Eagle	ECCC-TRC-11	Agnico Eagle agrees to conduct one more year of bird surveys prior to construction of the full footprint of the windfarm. This includes spring and fall migration and breeding bird season.	Prior to construction of windfarm	Annual Report	Immediate resolution was not required for this commitment but will be completed per the agreed timeline; consider resolved for purposes of status update
8.	Technical Comments	Agnico Eagle	TC-TRC-01	Should the airstrip move forward in the future, Agnico Eagle will complete consultation and file the summary report with the Minister of Transport as required by the Canadian Aviation Regulations.	Commitment no longer applicable as the airstrip is removed from the Meliadine Extension scope.	No longer applicable	Resolved; commitment no longer applicable as the airstrip is removed from the Meliadine Extension scope.
9.	Technical Comments	Agnico Eagle	TC-TRC-02	Agnico Eagle will complete and submit the application for exemption under <i>Canadian Navigable Waters Act</i> 24 with all the required information to Transport Canada.	90 days following issuance of the Project Certificate	Transport Canada online application	Immediate resolution was not required for this commitment but will be completed per the agreed timeline; consider resolved for purposes of status update
10.	Technical Comments / Technical Meeting	Agnico Eagle	TC-TRC-03	Agnico Eagle will review the Minor Works Order and if applicable, submit the application to Transport Canada.	Complete Agnico Eagle submitted to TC and NIRB on January 20, 2023	Transport Canada online application, if applicable	Resolved; commitment complete
11.	Technical Comments	Agnico Eagle	CIRNAC-TRC-01	The Spill Contingency Plan, Water Management Plan, and Adaptive Management Plan will be updated to include nomenclature around the Discovery waterline, specific to the mitigation measures that were included within the Spill Contingency Plan updated during the Waterline Application.	90 days following issuance of the Project Certificate	Spill Contingency Plan, Water Management Plan, and Adaptive Management Plan	Immediate resolution was not required for this commitment but will be completed per the agreed timeline; consider resolved for purposes of status update

No.	Stage Commitment Made	Party Responsible for Commitment	Raised in Item#	Commitment	Commitment Status / Timeline	Form of Submission	Agnico Eagle Status of Commitment Resolution
12.	Technical Comments	Agnico Eagle	DFO-TRC-08	Agnico Eagle will evaluate ponds in the X Watershed next year during field investigations, and will provide a list of the baseline monitoring to be collected before proceeding with new work on the site and the associated schedule.	Complete	Memorandum	Resolved; commitment complete
13.	Technical Comments	NIRB	GN-TRC-12(2)	Agnico Eagle agrees with the proposed modification to Term and Condition No. 111	Issuance of the Project Certificate	n/a	Commitment complete; NIRB to determine Term and Condition modifications
14.	Technical Comments	Agnico Eagle	NIRB-TC-001	<p>Agnico Eagle commits to adding the following thresholds and mitigation measures to Table C.2 of the Dust Management Plan 90 days prior to construction of the airstrip:</p> <ul style="list-style-type: none"> Frequency: regular weekly or more frequent inspection during the late spring and summer periods Indicator: measured dustfall and deterioration of visibility along the airstrip Threshold: deterioration of visibility, safety concern, dustfall exceeding 1.58 mg/cm²/30-day at station DF-9 (located 500 m south the airstrip) Mitigation Measures: use water and/or calcium chloride to control the dust, grade the airstrip surface and add new granular material to the airstrip surface 	Commitment no longer applicable as the airstrip is removed from the Meliadine Extension scope.	No longer applicable.	Resolved; commitment no longer applicable as the airstrip is removed from the Meliadine Extension scope.
15.	Technical Comments	Agnico Eagle	KivIA-TC-08 KivIA-TC-09 CIRNAC-TRC-02 ECCC-TRC-07 ECCC-TRC-08 NRCan-TRC-02 NRCan-TRC-03 NRCan-TRC-04	Agnico Eagle commits to detailed discussion and evaluation of in-pit deposition through the Type A Water Licence Amendment.	Replaced by Commitments 40, 41, 42	n/a	Resolved; commitment complete
16.	Technical Comments	Agnico Eagle	KivIA-TC-04 KivIA-TC-05	Details of the water balance and water quality predictions on surface contact water discharge quality to Meliadine Lake will be provided as part of the Type A Water Licence Amendment process.	Complete Water Balance and Water Quality Update submitted to NWB on January 13, 2023	Water Licence Amendment Application	Resolved; commitment complete
17.	Technical Comments	Agnico Eagle	DFO-TRC-02 DFO-TRC-03 DFO-TRC-04 DFO-TRC-05	Agnico Eagle commits to continue working with the DFO through the parallel regulatory process to obtain a <i>Fisheries Act</i> Authorization and provide details in Final Fish Habitat Offsetting Plan	Complete	Memorandum	Resolved; commitment complete
18.	Technical Meeting	Agnico Eagle	DFO-TRC-01, 02, 03, 04, 05, 06, 07 and 08	Agnico Eagle commits to meeting DFO and KivIA in Yellowknife to resolve outstanding matters.	Complete Meeting held in Yellowknife January 17-19, 2023	Memorandum	Resolved; commitment complete
19.	Technical Meeting	Agnico Eagle	CIRNAC-TRC-03 NRCan-TRC-09	Agnico Eagle commits to provide a thermal analysis for TIRI2.	Complete Issued to NIRB on January 30, 2023	Water Licence Amendment Application	Resolved; commitment complete
20.	Technical Meeting	Agnico Eagle	CIRNAC-TRC-02 ECCC-TRC-07 ECCC-TRC-08 NRCan-TRC-09	Agnico Eagle commits to discuss the key components to be evaluated of in-pit deposition of waste rock and tailings.	Complete Meeting held in Rankin Inlet on November 25, 2022	Meeting	Resolved; commitment complete
21.	Technical Meeting	Agnico Eagle	ECCC-TRC-05	Agnico Eagle's and ECCC's technical experts will meet to discuss the net-zero plan and carbon sinks per the requests raised by ECCC in more detail. A summary of the discussion will be provided to the NIRB following the conclusion of the meeting.	Complete Issued to NIRB and ECCC on January 19, 2023	Meeting notes	Resolved; commitment complete

No.	Stage Commitment Made	Party Responsible for Commitment	Raised in Item#	Commitment	Commitment Status / Timeline	Form of Submission	Agnico Eagle Status of Commitment Resolution
22.	Technical Meeting	Agnico Eagle	ECCC-TRC-11	Agnico Eagle will conduct post-construction mortality surveys for the full footprint of the windfarm during spring, fall, and breeding bird season for 1 year and then evaluate if further years are required.	Post-construction of windfarm	Annual Report	Immediate resolution was not required for this commitment but will be completed per the agreed timeline; consider resolved for purposes of status update
23.	Technical Meeting	Agnico Eagle	HC-AQ-4	Agnico Eagle will provide compiled air quality annual report results compared to the 2014 FEIS and include statistical analysis.	Complete Agnico Eagle submitted to HC and NIRB on January 17, 2023	Memorandum	Resolved; commitment complete
24.	Technical Meeting	Agnico Eagle	Technical Meeting	Agnico Eagle commits to bring members of the Terrestrial Advisory Group to an existing / representative windfarm location.	Complete Agnico Eagle hosted site visit on February 14, 2023 and NIRB notified on February 16, 2023	Site visit summary	Commitment complete. Agnico Eagle has scheduled another windfarm site visit for June 28
25.	Technical Meeting	Agnico Eagle	SDFN/NDFN-TC-02	Provide a schematic of the Discovery waterline and All-weather access road waterline connection.	Complete Agnico Eagle submitted to SDFN/NDFN and NIRB on January 19, 2023	Schematic and cross-section	Resolved; provided as part of May 23 submission
26.	Technical Meeting	Agnico Eagle	GN-TRC-01	Agnico Eagle will provide with respect to the chronic air quality assessment in the Human Health Risk Assessment: 1) additional rationale on how and why people use the discrete receptor locations and why the selected toxicity reference values correspond to these uses; 2) details regarding the underlying assumptions which the toxicity reference value were derived; and 3) sensitivity analysis with risk estimates.	Complete Agnico Eagle submitted to GN and HC on January 19, 2023	Technical Memorandum	Resolved; commitment complete
27.	Technical Meeting	Agnico Eagle	GN-TRC-02	Agnico Eagle will provide additional details on the assumptions used in the risk assessment, specifically: 1) when users are at the discrete receptor locations and how they use those locations; 2) duration of visits; and 3) who are the users (i.e., whether they are adults or families).	Complete Agnico Eagle submitted to GN and NIRB on December 16, 2022	Technical Memorandum	Resolved; commitment complete
28.	Technical Meeting	Agnico Eagle	GN-TRC-04 HC-WQ-01	Agnico Eagle will provide more support for assumptions that Saline Pond B7 would not be used as a primary source of drinking water in post-closure and will provide the details of calculations used to determine risks associated with emergency use of Saline Pond B7 as a drinking water source.	Complete Agnico Eagle submitted to GN and HC on January 31, 2023	Technical Memorandum	Resolved; commitment complete
29.	Technical Meeting	Agnico Eagle	HC-CF-02	Agnico Eagle will provide additional information and/or reference material to provide clarification of soil quality data collected since the 2014 FEIS.	Complete Agnico Eagle submitted to HC and NIRB on December 16, 2022	Memorandum and past annual TEMMP reports	Resolved; commitment complete
30.	Technical Meeting	Agnico Eagle	HC-HHRA-03	Agnico Eagle will provide a map showing discrete receptor locations used in the HHRA and updated monitoring stations, as well as the Meliadine Extension footprint.	Complete Agnico Eagle submitted to the HC and NIRB on December 9, 2022	Map	Resolved; commitment complete
31.	Technical Meeting	Agnico Eagle	HC-HHRA-04	Agnico Eagle will provide additional information regarding the dose-averaging approach for the chronic air quality assessment, with respect to receptor selection, exposure dose calculation, and selection of toxicity reference values, with this information being substance-specific and scenario-specific.	Complete Agnico Eagle submitted to GN and HC on January 19, 2023	Technical Memorandum	Resolved; commitment complete
32.	Technical Meeting	Agnico Eagle	HC-AQ-02	Agnico Eagle will provide a list of substances specific to the proposed airstrip's construction and operation, and determine whether any of these substances are distinct from chemicals of potential concern (COPCs) already assessed in the existing HHRA. If new substances are identified, a qualitative update to the HHRA will be completed.	Commitment no longer applicable as the airstrip is removed from the Meliadine Extension scope.	No longer applicable	Resolved; commitment no longer applicable as the airstrip is removed from the Meliadine Extension scope.
33.	Technical Meeting	Agnico Eagle	SDFN	Agnico Eagle will provide a summary of the wind analysis for the windfarm from Agnico Eagle's 3 rd Party Consultant.	Complete Agnico Eagle submitted to SDFN/NDFN and NIRB on January 13, 2023	Memorandum	Resolved; commitment complete
34.	Technical Meeting	Agnico Eagle	GN	Agnico Eagle commits to providing a graph to showing pre-COVID employment vs. actuals to evaluate differences.	Complete Agnico Eagle submitted to the GN and NIRB on December 9, 2022	Memorandum	Resolved; commitment complete

No.	Stage Commitment Made	Party Responsible for Commitment	Raised in Item#	Commitment	Commitment Status / Timeline	Form of Submission	Agnico Eagle Status of Commitment Resolution
35.	Technical Meeting	Agnico Eagle	GN-TRC-05	Agnico Eagle commits to meet with the GN to discuss which polygon to use for the potential analysis of the post-calving range.	Complete Information provided	Email of conclusions	Resolved; commitment complete
36.	Technical Meeting	Agnico Eagle	GN-TRC-08	Agnico Eagle will provide a table showing caribou observations and all-weather access road shutdowns.	Complete	Table	Resolved; Agnico Eagle met with the GN on January 26 and commits to collecting information moving forward. See new commitment 57 to address additional requests.
37.	Technical Meeting	Agnico Eagle	GN	Agnico Eagle commits to meet with the GN in Iqaluit to resolve outstanding caribou technical comments.	Complete Agnico Eagle met with GN on January 26, 2023	Memorandum	Resolved; meeting held in Iqaluit on April 5, 2023 and in Winnipeg on April 12, 2023
38.	Technical Meeting	Agnico Eagle	KivIA	Agnico Eagle commits to meet with the KivIA to resolve outstanding caribou technical comments.	Complete Agnico Eagle met with KivIA on March 9, 2023	Memorandum	Resolved; meeting held in Winnipeg on April 12, 2023
39.	Technical Meeting	Agnico Eagle	SDFN/NDFN-TC-1	Agnico Eagle commits to providing the 2014 FEIS viewshed which excludes the wind turbines.	Complete Agnico Eagle submitted to SDFN/NDFN and NIRB on January 30, 2023	Map	Resolved; commitment complete
40.	Technical Meeting	Agnico Eagle	NRCan, ECCC, CIRNAC	Agnico Eagle commits to providing framework for Meliadine in-pit deposition studies that follows the methodology from the Meadowbank submission to NIRB.	Complete Agnico Eagle emailed to Parties on November 26, 2022	Document	Resolved; commitment complete
41.	Technical Meeting	NRCan, ECCC, CIRNAC	Agnico Eagle	NRCan, ECCC, and CIRNAC will provide a response to Agnico Eagle on the in-pit deposition methodology.	Complete All parties provided comments on or before December 5, 2022	Document	Resolved; commitment complete
42.	Technical Meeting	Agnico Eagle	NRCan, ECCC, CIRNAC	Agnico Eagle will provide results from the in-pit methodology for tailings in-pit deposition.	Complete. Agnico Eagle submitted to ECCC, CIRNAC, NRCan, KivIA, and NIRB on December 16, 2022	Document	Resolved; commitment complete
43.	Technical Meeting	Agnico Eagle	SDFN/NDFN	Agnico Eagle will provide pre-construction imagery of the Meliadine Extension locations where the wind turbines, airstrip, waste rock storage pits and borrow pits would be located and then later, disturbed.	Complete Agnico Eagle submitted to SDFN/NDFN and NIRB on December 9, 2022	Memorandum and map	Resolved; provided as part of May 23 submission
44.	Technical Comment / Technical Meeting	Agnico Eagle	DFO-TRC-01	Agnico Eagle will provide maps of which waterbodies are planned to being dewatered now as opposed to the proposal from 2014 and provide an explanation as to why they need to be dewatered now and not in 2014.	Complete	Memorandum	Resolved; commitment complete
45.	Technical Comment / Technical Meeting	Agnico Eagle	DFO-TRC-01	Agnico Eagle will provide an approximation of the fish habitat proposed to be destroyed in 2014 and what is proposed today.	Complete	Memorandum	Resolved; commitment complete
46.	Technical Comment / Technical Meeting	Agnico Eagle	DFO-TRC-04	Agnico Eagle will provide an explanation as to how discovering char in 2020-2021 in lake A6 and the decision to completely dewater the lake as opposed to partially dewater as was planned in 2014 follows an adaptive management approach which gives priority to avoidance of impacts.	Complete	Memorandum	Resolved; commitment complete
47.	Technical Meeting	Agnico Eagle	NIRB	Agnico Eagle will provide a list of items that would be provided to the NIRB if the airstrip was going to be added in the NIRB process.	Commitment no longer applicable as the airstrip is removed from the Meliadine Extension scope.	No longer applicable	Resolved; commitment no longer applicable as the airstrip is removed from the Meliadine Extension scope.

No.	Stage Commitment Made	Party Responsible for Commitment	Raised in Item#	Commitment	Commitment Status / Timeline	Form of Submission	Agnico Eagle Status of Commitment Resolution
48.	Technical Meeting	Agnico Eagle	NIRB-TM-01	Agnico Eagle has confirmed that the airstrip will no longer be included in the Meliadine Extension Project proposal. Thus, there will be no changes with respect to air transportation relating to the project, and that the current use of the airport in Rankin Inlet will continue.	Commitment made by Agnico Eagle December 15, 2022	Letter to NIRB	Resolved; commitment complete
49.	Technical Meeting	Agnico Eagle	GN-10, KIA-01 through KIA-03 SDFN-01 and 03	Agnico Eagle will add shut down of the wind turbines during caribou migration to the list of activities included in the work suspension protocol described in the Terrestrial Environment Management and Monitoring Plan.	Commitment made by Agnico Eagle December 15, 2022	Letter to NIRB	Resolved; commitment complete
50.	Technical Comment / Technical Meeting	Agnico Eagle	ECCC-TRC-05	Agnico Eagle commits to provide an estimate of GHG emissions associated with the construction and decommissioning phases including methodology and assumptions used.	Complete Agnico Eagle submitted to ECCC and NIRB on February 9, 2023	Memorandum	Resolved; commitment complete
51.	Technical Comment / Technical Meeting	Agnico Eagle	ECCC-TRC-05	Agnico Eagle commits to review and incorporate the guidance for mitigation measure principles and the BAT/BEP determination process in Section 3 of the draft Technical Guide as per discussions on December 22, 2022.	Complete Agnico Eagle submitted to ECCC and NIRB on February 9, 2023	Memorandum	Resolved; commitment complete
52.	Technical Comment / Technical Meeting	Agnico Eagle	ECCC-TRC-05	Agnico Eagle will provide more details regarding its net-zero plan as per discussions on December 22, 2022.	Complete Agnico Eagle submitted to ECCC and NIRB on January 20, 2023	Memorandum	Resolved; commitment complete
53.	Technical Comment / Technical Meeting	Agnico Eagle	ECCC-TRC-05	Agnico Eagle confirms to perform an assessment of the Meliadine Extension impact on carbon sinks.	Complete Agnico Eagle submitted to ECCC and NIRB on January 30, 2023	Memorandum	Resolved; commitment complete
54.	Technical Comments	CIRNAC	CIRNAC-TRC-02	Agnico Eagle agrees with a term and condition to be added to the Project Certificate and/or Water Licence, prior to pursuing in-pit deposition of tailings or waste rock.	90 days prior to in-pit deposition	n/a	Resolved; commitment complete; NIRB to determine Term and Condition modifications
55.	Technical Comments	CIRNAC	CIRNAC-TRC-03	Agnico Eagle commits to submit the following information during subsequent Water Licensing processes: <ul style="list-style-type: none"> Operational details on the storage of water in pits, including but not limited to: the volume and quality of water to be stored in each pit, the anticipated duration of storage and environmental monitoring of stored water. Pit-specific quantitative analysis of interactions between stored water and the groundwater regime 	Water Licensing process		Resolved
56.	Technical Comment	GN	GN-TRC-07 Commitment 38 of Waterline file:	<p>Agnico Eagle commits to conduct an alternative study of the movements of caribou in relation to the Meliadine Mine (not just its road) using collar data. The study is to include:</p> <ol style="list-style-type: none"> A collaborative analysis whereby the Meliadine Terrestrial Advisory Group (TAG) was involved at each stage of the study including objectives selection, study design and analytical methods, review, and interpretation of results. That for each of the stages identified above, consensus should be reached if possible. <p>This is based on the conclusion reached by the Meliadine TAG at the December 2022 meeting.</p> <p>At the April 13, 2023 Meliadine Terrestrial Advisory Group (TAG) meeting, an agenda item included the review and discussion on the proposed Meliadine Waterlines Commitment 38: Caribou Telemetry Study Design. After presentation and discussion, there was agreement by parties on the scope and path forward to execute the analysis. Agnico Eagle is committing to present the results of the agreed analysis at the June 26-27, 2023 Meliadine TAG meeting. Agnico Eagle will produce a final memorandum for submission to Meliadine TAG members by July 17, 2023 based on the agreed analysis execution on April 13, 2023. Once the final memorandum has been submitted, Commitment 38 will be considered finalized and resolved.</p>	July 17, 2023	Technical Memorandum	Not resolved as study is being completed

No.	Stage Commitment Made	Party Responsible for Commitment	Raised in Item#	Commitment	Commitment Status / Timeline	Form of Submission	Agnico Eagle Status of Commitment Resolution
57.	Technical Comment	GN	GN-TRC-08	<p>Agnico Eagle commits to:</p> <p>a) Record all observations of caribou collected during Project-related surveys (by Agnico Eagle employees or contracted personnel), and incidental reports (from Agnico Eagle employees, contracted personnel, or members of the public); and</p> <p>b) Report these observations in the same format as that used in Appendix A (Tables A-1 and A-2) of the Meadowbank and Whale Tail 2021 Wildlife Monitoring Summary Report.</p>	Following issuance of Project Certificate Amendment	Annual Report	Immediate resolution was not required for this commitment but will be completed per the agreed timeline; consider resolved for purposes of status update
58.	Technical Comments	GN	GN-TRC-14	Agnico Eagle commits to discussions for potential partnerships with the community or other groups.	Prior to construction of windfarm	n/a	Immediate resolution was not required for this commitment but will be completed per the agreed timeline; consider resolved for purposes of status update
59.	Technical Comments	GN	GN-TRC-12	The ECC is currently working on delivering an updated version of the IWBS. Agnico Eagle is proposing the addition of a new section to the IWBS. This gender-specific focus of the IWBS will include identifying barriers to female employees for employment, retainment, and career advancement. The updated IWBS will also update its opportunities to mitigate barriers and provide gender-specific recommendations. This section of the IWBS would be completed by August 31, 2023, and shared with the Government of Nunavut at that time.	August 31, 2023	New section in IWBS	Not resolved as study is being completed
