Summary of Technical Comments

Sustaining Operations Proposal

TRANSPORT CANADA MANDATE

Transport Canada's role in the Sustaining Operations Proposal is to make sure that Milne Port and the project vessels follow our safety regulations.

[illegible]

TRANSPORT CANADA MANDATE

This includes regulations that reduce the chances of marine pollution and the introduction of invasive species and make sure the vessels are safe.

TECHNICAL COMMENT #1

We asked Baffinland to give details about larger vessels, such as Capesize.

This will help us understand how those vessels will stay safe and follow regulations.

$\triangleright_{\mathcal{Q}} \Delta b \dot{\prec} \Pi \sigma \triangleleft^{\mathfrak{b}} \supset^{\mathfrak{b}} \supset \rho \gamma \supset \mathcal{C} \mathfrak{b} \text{--} \mathfrak{d}^{\mathfrak{b}} \triangleright \Gamma \triangleleft^{\mathfrak{r}} \mathcal{L} \triangleleft^{\mathfrak{b}}$
 $\triangleleft^{\mathcal{C}} \mathcal{C}^{\mathfrak{r}} \mathfrak{d}^{\mathfrak{b}} \supset \mathfrak{d}^{\mathfrak{b}} \mathcal{C} \Delta \mathcal{C} \Pi^{\mathcal{C}} \supset^{\mathfrak{d}} \mathfrak{d} \mathfrak{r}^{\mathcal{C}} \Pi \mathcal{J}^{\mathcal{C}} \triangleleft^{\mathcal{L}} \mathcal{L} \supset \mathcal{L} \mathcal{C}^{\mathcal{C}} \Pi \triangleleft^{\mathfrak{r}} \supset \Pi^{\mathfrak{b}}$
 $\wedge^{\mathfrak{r}} \mathfrak{d} \mathcal{L} \mathfrak{r} \dot{\prec} \sigma^{\mathfrak{b}}.$

TECHNICAL COMMENT #2

We asked Baffinland to use current Ballast Water Regulations in their documents.

This will make sure project vessels meet up to date regulations.

$$C\Delta L \supset \triangleright \zeta^a \sigma \triangleleft^c \delta^b \triangleright \Gamma \triangleleft^c \zeta \triangleleft^a \rho^c \triangleleft \mathcal{D}^b \rho \sigma \triangleleft^c L C$$

$$\dot{L}^a \Omega \zeta^b \sigma^b \wedge^c d \zeta^c \sigma^b.$$

THANK YOU!

ᄒᆞᆫ ᄇᆡᆯᆫ

We look forward to continued discussions with Baffinland, intervenors, and Inuit communities about the Sustaining Operations Proposal.
