TITLE: Inuit Qaujisarnirmut Pilirijjutit on Arctic Shipping Risks in Inuit Nunangat

OBJECTIVES OF RESEARCH:

The Inuit Qaujisarnirmut Pilirijjutit on Arctic Shipping Risks in Inuit Nunangat (IQP-ASR) project was co-developed by representatives from Inuit organizations, Inuit communities, and scientists in Canada and the UK. Our goal is to co-generate knowledge about risks associated with increased shipping across Inuit Nunangat. We have another extensive field campaign planned for the open-water season of 2025, including the same activities undertaken in previous years.
