Hi Cassel,

Thank you. The Hamlet will accept this offer for a hold, and if anything changes where we can confirm the project won't be continued, myself or a Hamlet member will let you know.

Good day Victoria,

Thank you for your response regarding the Hamlet of Chesterfield Inlet's "Access Trail Project Chesterfield Inlet" project proposal. The Nunavut Impact Review Board (NIRB) is offering to suspend the file until the Proponent has all required information. Should the Proponent wish to resume the assessment in the future, a written request must be filed directly with the NIRB; please note that if such a written request has not been filed within three years of the suspension date, the assessment of the project will be terminated as per s. 143(4) of the *NuPPAA*.

Please inform me or the Technical Administration team if this is an option the Proponent would like to go through with.

If you have any questions or concerns regarding the suspension or termination of the Hamlet of Chesterfield Inlet's "Access Trail Project Chesterfield Inlet" project proposal, please contact the NIRB's Technical Administration team at info@nirb.ca or call toll-free at 1-866-233-3033.

Best regards,

Hello Calvin and the NIRB Team

The Hamlet of Chesterfield Inlet, would like to request the cancellation of this Project application. The Hamlet and the GN are currently in discussion on any synergies that may exist for overlap of projects and interest. Once that path has been confirmed, the Hamlet will assess if their own application is required.

We appreciate your support through this project and will re apply to the NPC for a referral in the future if required.

Hello Calvin and the NIRB team.

We are working on our IR responses from the inquiries we received from several AHJs.

Can we request an extension to the new year from your December 13 deadline line below? A timeline of January 22 2024 would be appreciated.
