TITLE: Baseline Studies for Qikiqtarjuaq Marine Infrastructure

OBJECTIVES OF RESEARCH:

CBCL Limited (CBCL) has been retained by Government of Nunavut (GN) to provide architectural and engineering services for a deep-water port facility in Qikiqtarjuaq, Nunavut. To support the design, CBCL along with their sub-consultants propose to carry out baseline field studies and traditional knowledge or Inuit Qaujimajatuqangit (IQ) gathering in the spring and summer of 2024 to assess the proposed port area and quarry locations. The information obtained will be used to design the deep-water port facility, to evaluate the environmental risks, and to obtain the necessary permits to construct the port.

TERMS & CONDITIONS:

The holder of the licence will be bound by the terms and conditions of the Nunavut Impact Review Board Screening Decision Report (24YN008) and the Department of Culture & Heritage archaeological sites terms and conditions. These terms and conditions will form part of this licence.

DATA COLLECTION IN NU:

DATES: May 7,2024 to September 30,2024

LOCATION: Qikiqtarjuaq

Scientific Research License 01 020 24N-A expires on December 31,2024

Issued at Iqaluit, NU on May 7, 2024
