Dundee Bight Permanent Camp Site	Camp	Crown	Qausuittuq National Park, temporary camp since 2016. Site has proven to be suitable for a permanent camp and specific upgrades are proposed in this assessment.	A Parks Canada archaeologist has been given all relevant information, photos and previous survey results for review.	Approx 200kms from Resolute bay
Dundee Bight Permanent Camp Site	Fuel and chemical storage	Crown	Since the site has been a temprary camp we have had 4-10 barrels of Diesel, MoGas and/ore JetA at times. As this is becoming a permanent camp we are likely to have up to 50 drums of fuel at times	Parks Canada archaeologist is examining potential, but preliminary surveys have not found anything in the immediate area.	less than 200kms to Resolute Bay
Dundee Bight Permanent Camp Site	Airstrip use or construction	Crown	Existing runway will be used and maintained for Twin Otter. Pilots instructed to not land if caribou spotted in the area. Local gravel and dirt will be used to fill holes and ruts as needed.	A Parks Canada archaeologist has been given all relevant information, photos and previous survey results for review.	less than 200kms to Resolute Bay
Dundee Bight Permanent Camp Site	Researching	Crown	As base camp for Parks Canada our ecological integrity monitoring will be based out of the site. Non-invasive measuring of Permafrost, plant species and blooming time, weather and snow cover could all be measured.	A Parks Canada archaeologist has been given all relevant information, photos and previous survey results for review.	less than 200kms to Resolute Bay
Dundee Bight Permanent Camp Site	Other	Crown	Site will be used for engagement and consultation with Resolute Bay community, including an in the park Park Management Committee meeting every 2-5 years. Opportunities for elder / youth camps and other community engagement will be explored.	A Parks Canada archaeologist has been given all relevant information, photos and previous survey results for review.	less than 200kms to Resolute Bay
Dundee Bight Permanent Camp Site	Tourism Activities	Crown	Since the creation of the National Park in 2015, Park Staff have been exploring the area for a suitable camp location to support Parks Canada	Parks Canada archaeologist is examining potential, but preliminary surveys have not found anything in the	The nearest community is Resolute Bay, NU, found 193km southeast of

[illegible]

See attached project description and site assessment. There will be some compaction of the soils around the site with increased foot traffic and the temporary camp. Low impact camping practices will be used. There

are potential tent circles in the area (that information still needs confirmation), but the camp would be across the river from that site. Furthermore, staff are well aware of how to avoid disturbing archaeological/cultural sites. Fuel will be stored with secondary containment and a spill kit will always be available on-site. Waste will be packed in waste bags and transported out to Resolute for proper disposal. The camp area will be restricted to a 50 x50 bear fence to minimize impact.
