Dundee Bight Permanent Camp Site	Camp	Crown	Qausuittuq National Park, temporary camp since 2016. Site has proven to be suitable for a permanent camp and specific upgrades are proposed in this assessment.	A Parks Canada archaeologist has been given all relevant information, photos and previous survey results for review.	Approx 200kms from Resolute bay
Dundee Bight Permanent Camp Site	Fuel and chemical storage	Crown	Since the site has been a temprary camp we have had 4-10 barrels of Diesel, MoGas and/ore JetA at times. As this is becoming a permanent camp we are likely to have up to 50 drums of fuel at times	Parks Canada archaeologist is examining potential, but preliminary surveys have not found anything in the immediate area.	less than 200kms to Resolute Bay
Dundee Bight Permanent Camp Site	Airstrip use or construction	Crown	Existing runway will be used and maintained for Twin Otter. Pilots instructed to not land if caribou spotted in the area. Local gravel and dirt will be used to fill holes and ruts as needed.	A Parks Canada archaeologist has been given all relevant information, photos and previous survey results for review.	less than 200kms to Resolute Bay
Dundee Bight Permanent Camp Site	Researching	Crown	As base camp for Parks Canada our ecological integrity monitoring will be based out of the site.	A Parks Canada archaeologist has been given all relevant information, photos and previous survey results for review.	less than 200kms to Resolute Bay

			Non-invasive measuring of Permafrost, plant species and blooming time, weather and snow cover could all be measured.		
Dundee Bight Permanent Camp Site	Other	Crown	Site will be used for engagement and consultation with Resolute Bay community, including an in the park Park Management Committee meeting every 2-5 years. Opportunities for elder / youth camps and other community engagement will be explored.	A Parks Canada archaeologist has been given all relevant information, photos and previous survey results for review.	less than 200kms to Resolute Bay
Dundee Bight Permanent Camp Site	Tourism Activities	Crown	Since the creation of the National Park in 2015, Park Staff have been exploring the area for a suitable camp location to support Parks Canada Operations. Tourism and research infrastructure will be built, there are currently 2 shelters for staff and community members who are accessing the area for operational, visitation, cultural or emergency purposes	Parks Canada archaeologist is examining potential, but preliminary surveys have not found anything in the immediate area.	The nearest community is Resolute Bay, NU, found 193km southeast of Dundee Bight

Transportation Type	Qanuq Atuqtauniarmangaa	Length of Use
Air	Twin Otter, Helicopter	
Land	Snowmobile	

Project accomodation types

Permanent Camp

Ihuaqutivaluin Atuqtauyukhan

Hanalrutit atuqtaunahuat (ukuallu ikuutat, pampiutainnik, tingmitinik, akhaluutinik, hunaluuniit)

Hanalrutit Qanurittuq	Qaffiuyut	Aktikkulaanga – Qanurittullu	Qanuq Atuqtauniarmangaa
Twin otter	4	1	Transport of staff, supplies and equipment from Resolute Bay
Water pump	1	1	draw water from nearby stream
Generator (solar/battery))	1	1	power equipment charge batteries
Generator (gas)	1	1	backup generator if weather prevents solar/battery generator use
Helicopter	1	1	Some helicopter use between Dundee camp and other areas of park (e.g., Dome camp, Young Inlet)
Hand tools/power tools	12	1	Construction of shelters, maintenance of structures and equipment

Qanurittuq Urhuqyuaq unalu Qayangnaqtut Hunavaluit Aturninga

Camp	Qirnarivyaktuq imaq	20L/day	A covered grey water pit will be constructed by burying a perforated 205L drum and then filling with rocks of various sizes. Grey water from kitchen/dishes will be lugged by hand to pit and dumped to percolate back to water table.	none
Camp	Ikulalimanngittun iqqakuuvaluin	0.5m ³ /d	Garbage will be stored on site in hard sided shelter until removal via Twin Otter and/or skidoo in spring. Garbage will be disposed of properly in Resolute Bay or if required, sealifted to a southern facility for disposal	Bagged and sent out for disposal
Camp	Anaagun (inuin anaaguin)	10L/day	Currently Pacto or Barrel style is used and transported out via Twin otter or Skidoo for proper disposal in Resolute. We are checking on feasibility of propane incinerating toilet. The ashes from this would be flown out as garbage for proper disposal in Resolute Bay.	Pacto and barrel style human waste collected, will be treated as hazardous waste and all Safe Work Practices followed.

Avatiliriniqmut Ayurhautingit:

See attached project description and site assessment. There will be some compaction of the soils around the site with increased foot traffic and the temporary camp. Low impact camping practices will be used. There are potential tent circles in the area (that information still needs confirmation), but the camp would be across the river from that site. Furthermore, staff are well aware of how to avoid disturbing archaeological/cultural sites. Fuel will be stored with secondary containment and a spill kit will always be available on-site. Waste will be packed in waste bags and transported out to Resolute for proper disposal. The camp area will be restricted to a 50 x50 bear fence to minimize impact.
