Good Day Mr. Scholz,

I looked over the application that I had submitted.

Yes, under "Licensing Agencies" there is nothing checked off as you had mentioned. I thought I did.
I do understand that I need a Canadian Wildlife Service Permit.

I would like to make an amendment to the application to include under "Licensing Agencies"
Government of Canada Canadian Wildlife Service.

Thank you

Robert

Thank you Mr. Emerson. There is a section called "Authorizing Agencies" in the application that is blank. Next to it is "Other Authorizing Agencies" which is also blank. Since this was a very small project involving EC staff on EC-administered land, and no Authorizing Agencies were listed, the conformity determination without screening was issued.

I can return the application to you for amendment if so requested.

Hi Peter,

Thank you.

In the application I had checked Canadian Wildlife Service as one of the permitting bodies. Would they need to be included in this letter or I do just forward this to them as part of my CWS permit application?

As for the other organizations mentioned in the letter would I need to wait to hear back from them. Or I am good to proceed.

Thank you
