If the Proponent fails to submit the requested additional information, the Board may suspend or terminate the assessment activities of the proposed project pursuant to the relevant provisions under s. 144 of the *NuPPAA*. Therefore, it is in Community Support Division's best interest to cure the identified information deficiencies in a timely manner. If Community Support Division determines that the time required to supply the required information is significantly greater than two (2) weeks, the Board requests written notification and an anticipated date for submission be provided as soon as possible.

Additionally, please be aware that the NIRB and the Nunavut Water Board (NWB) are required to coordinate their processes¹ for projects that require a water licence, especially municipal undertakings in order ensure the timely review and processing of the application. In undertaking a coordinated NIRB-NWB process, the Proponent must provide information through the assessment to satisfy both the impact assessment requirements as well as the water licensing process; furthermore, where information to satisfy each process is similar, coordination of the timing or contents of applications may be considered when information is being submitted to both organizations. However, the Proponent has the option to request or opt out of a coordinated process at any time. Should you wish to opt out during the initial submission of this application or discontinue the coordinated process, you may do so in writing to both the NIRB and the NWB.

Please submit all forthcoming project proposal information through the NIRB's online public registry at www.nirb.ca. For additional instructions regarding the new project application portal, please contact NIRB administration at info@nirb.ca or at 1-866-233-3033.

If you have any questions or require additional clarification, please contact the undersigned directly at (867) 983-4615 or cehaloak@nirb.ca.

Sincerely,

Calvin Ehaloak
Public Registry Coordinator
Nunavut Impact Review Board
