QANURITTUT

Tukhiannaqtunik havaariyaumayumik uqauhiuyun

Qablunaatitut: A 5,000 m2 sealift area is being proposed within the community to improve the sealift delivery operations. The surface will be gravel covered to facilitate equipment movements and temporary storage of delivery items. The sealift area will also incorporate a community boat ramp.

Uiviititut: Une zone de transport maritime de 5 000 m² est proposée au sein de la communauté pour améliorer les opérations de livraison par transport maritime. La surface sera recouverte de gravier pour faciliter les déplacements des équipements et le stockage temporaire des articles livrés. La zone de transport maritime comprendra également une rampe de mise à l'eau communautaire.

Avatiliriniqmut Ayurhautingit:

This project will require the infilling of portions of the harbour to accommodate the 5,000 m2 laydown area. EXP has reached out to DFO to have preliminary discussions on how to mitigate environmental concerns as this project design progresses. EXP is also having a Flora and Fauna report authored to assist the design.
