Project Name: The “Qikiqtait Marine Protected Area by Ministerial Order” project
Proponent Name: Fisheries and Oceans Canada (DFO)
Project Type: Marine Region: Qikiqtani Region
Public Registry: www.nirb.ca Application No.: 126015
Comment Deadline: **January 27, 2025**

PROJECT SCOPE:

The proposed Qikiqtait Marine Protected Area (Qikiqtait MPA) is a marine area established under a Ministerial Order and is located within the Belcher Islands Ecologically and Biologically Significant Area¹ in southeast Hudson Bay, within the Nunavut Settlement Area. The proposed marine area is approximately 180,000 square kilometres, surrounding the Belcher Islands, on which the community of Sanikiluaq is located. The program is proposed to take place from July 2025 to 2030. The scope of this proposed project as identified by the NIRB includes the following undertakings, works or activities:

- Lawful activities that have occurred or were authorized to occur in the 12 months before the order comes into force, or as identified in the classes of allowed activities in the Minister’s Order;²
- Research activities consistent with the conservation objectives of the Qikiqtait MPA
- Activities carried out for purposes of public safety, national defence, national security, law enforcement or in emergency situations.
- Inuit activities provided for under any Agreement or Act

Please visit the NIRB’s public registry online at the link above and look up NIRB File No.: **24VN053** to access all project information, maps, and public comment forms.

REQUEST FOR COMMENTS

You are invited to provide the NIRB with your comments regarding whether the proposed project is:

- likely to arouse significant public concern and, if so, why;
- likely to cause significant adverse ecosystemic or socio-economic effects and, if so, why;
- likely to cause significant adverse impacts on wildlife habitat or Inuit harvest activities and, if so, why;
- a type where the potential adverse effects are highly predictable and can be prevented/managed appropriately with known technology.

Parties are also invited to recommend any specific mitigation measures they feel would be appropriate, and to bring any other matter of importance related to this project proposal to the NIRB’s attention.
