**Re: Notice of Screening and Comment Request for Tetra Tech Canada Inc.'s  
"Chesterfield Inlet Sealift Improvements Project" Proposal**

Dear Francis Emingak,

On January 17, 2025, the Nunavut Impact Review Board (NIRB) invited parties to comment on Tetra Tech Canada Inc.'s "Chesterfield Inlet Sealift Improvements Project" proposal. Crown-Indigenous Relations and Northern Affairs Canada (CIRNAC) has reviewed the proposal and offers the responses below pertaining to the NIRB's request:

**Whether the project proposal is of a type where the potential adverse effects are highly predictable and mitigable with known technology (and providing any recommended mitigation measures).**

**CIRNAC 1: Mitigation Measures**

CIRNAC is of the view that the potential adverse effects of the project are predictable and mitigable with known technology. CIRNAC recommends that the Proponent consider implementing best practices to mitigate potential adverse effects from the project related to fuel management and erosion, including, but not limited to:

- Using drip pans or other equivalent devices when refuelling equipment to aid in the prevention of fuel spills;
- Having spill response equipment and clean-up materials (e.g., shovels, pumps, barrels, and absorbents) readily available during any transfer of fuel or hazardous substances;
- Implementing sediment control measures on disturbed areas before, during, and after construction;
- Selecting ground that can support heavy equipment and vehicles, to minimize land disturbance; and
- Isolating the work area for in-water works (e.g., silt curtain), to contain suspended sediment.

**Any matter of importance to the Party related to the project proposal.**

**CIRNAC 2: Consultation with Interest Parties**

CIRNAC recommends that the Proponent continue to consult with interested residents and organizations of Chesterfield Inlet regarding its project proposal. As part of any consultation activities, several issues should be considered, including, but not limited to:

- Incorporation of Inuit Qaujimajatuqangit into project activities;
- Training and employment opportunities for Inuit and community members;
- Procurement opportunities for local and Inuit-owned businesses; and
- Regular updates on the status of project activities.

CIRNAC appreciates the opportunity to provide comments. Should you have any questions, please contact John MacInnis or David Abernethy by e-mail at [john.macinnis@rcaanc-cirnac.gc.ca](mailto:john.macinnis@rcaanc-cirnac.gc.ca) or [david.abernethy@rcaanc-cirnac.gc.ca](mailto:david.abernethy@rcaanc-cirnac.gc.ca).

Sincerely,

Richard Bingley  
Manager, Impact Assessment
