

December 16, 2024

To whom it may concern:

The SmartICE Community Management Committee in Mittimatalik, self-named *Sikumiut*, comprising local representatives from community and regional/national organizations (Hamlet, HTO, Search and Rescue, Government of Nunavut, Parks Canada, Canadian Rangers, Ikaarvik), as well as elders and young hunters, received a presentation on the Sikunnguaq project from the PI at our October meeting. The project was enthusiastically received and represents a long-term commitment by SmartICE and other team members to ice travel safety in Nunavut. We fully support the project.

Sincerely,

Andrew Arreak  
Sikumiut Coordinator
