To whom it may concern:

The SmartICE Community Management Committee in Qikiqtarjuaq, self-named *Ikirmiut*, comprising local representatives from community and regional organizations (Hamlet, HTO, Search and Rescue), as well as elders and young hunters, was hoping to receive a presentation on the Sikunnguaq project from the PI at our October meeting, but unfortunately it had to be cancelled for local reasons. Instead, our members have read and discussed a non-technical summary of the proposal with me. The response has been unanimously positive, and the members look forward to seeing the benefits of this project for their community. The project represents a long-term commitment by SmartICE and other team members to ice travel safety in our region.

Sincerely,
