TITLE: Sikunnguaq-The Likeness or Image of Ice in Maps

OBJECTIVES OF RESEARCH:

This project was initiated by the SmartICE community management committee in Mittimatalik, the self-titled "Sikumiut (people of the ice)". The Sikumiut includes Elders and youth from Mittimatalik and members from the Mittimatalik Hunters and Trappers Organization, Hamlet Council, Canadian Rangers, Search and Rescue, and Parks Canada. Our international project team is now made up of co-principal investigators from University of Victoria, SmartICE, University College London in the United Kingdom, and the University of Bremen in Germany. Together with the Sikumiut and SmartICE community management committees in Iqaluktuuttiaq, Uqsuqtuuq, and Qikiqtarjuaq, we have co-designed a Nunavut based research plan to make better maps for identifying sea ice features related to safe travel from images and data collected by satellites.

TERMS & CONDITIONS:

The holder of the license will be bound by the terms and conditions of the Nunavut Impact Review Board Screening Decision Report (NIRB File #25YN001) and the Department of Culture & Heritage archaeological sites terms and conditions. These terms and conditions will form part of this license.

DATA COLLECTION IN NU:

DATES: April 23,2025 to June 21,2025

LOCATION: Cambridge Bay,Gjoa Haven,Pond Inlet, Qikiqtarjuaq

Scientific Research License 01 020 25N-M expires on December 31,2025

Issued at Iqaluit, NU on April 23,2025
