Board of Directors

Nunavut Impact Review Board

Nunavut, Canada

To Whom It May Concern:

The Hamlet of Resolute Bay is supportive of the Nunavut Impact Review Board (NIRB) Screening Application submitted by Worley on behalf of the Government of Nunavut for our Community Harbour (the Project).

The Hamlet has collaborated closely with the Project team over the past several years on the Project design and construction planning.

We understand that our community services have the capacity to support the Project's needs, including potable and non-potable water, wastewater disposal, and solid waste management. Additionally, the Project is committed to taking all necessary measures to avoid placing any strain on these services. We also understand that the Project is coordinating with the Government of Nunavut's Petroleum Products Division to confirm that the fuel needs for the Project will be met without burdening the community's fuel supply.

We are also aware that local accommodations in the form of a construction camp for approximately 30 workers will likely be required. Resolute has multiple accommodation options available in the community. If these options are insufficient, we are supportive of a construction camp and will work directly with the selected contractor to locate an appropriate area for the camp within our municipal boundaries.

The Project has the Hamlet's approval to operate and source rock from a new quarry that will be located southwest of the community. We are also supportive of the Project making improvements to our existing Hamlet Road (the haul route) to haul rock from the new quarry to the community harbour site. In addition to our long awaited and much needed new harbour, we will have an option to use the new quarry for rock and gravel production.

We support the Project's aim to maximize local Inuit training and employment opportunities while not straining the Hamlet's workforce.

We look forward to the many benefits this Project will bring to our community.

If you have any questions, please do not hesitate to contact me at the Hamlet of Resolute Bay Office.

Sincerely,

DocuSigned by:
