RE: Arctic Char studies for 2025

The Kangiqliniq Hunters and Trappers Organization is in support of DFO's request to continue studying Arctic Char in the Rankin Inlet Nu area. For the following:

- Acoustic telemetry and eDNA monitoring of Arctic char and marine fishes
- Marine microplastics and contaminants monitoring of arctic char and marine fishes
- Arctic char and marine fishes' diet and muscle colour studies

With two conditions:

that DFO pays their local Staff directly and work with Quamajuaq Environmental LTD. On consolidated report.

Motion # 01-21-25-05

If you have any questions do not hesitate to contact the KHTO.

Sincerely,

Andre Aokaut
