Hi Gwen,

Thanks for the update. As cruise vessels transiting through Nunavut may require screening—or may be exempt but still processed through the NPC—NIRB is requesting the associated file number from either NPC or NIRB.

It may be best to contact Adventure Canada to confirm.

Hi Varun,

Thank you for your email, and we are so sorry for the delayed response, the emails had gone to Eric's junk mail and so we did not see them.

In terms of details for the vessel I will be travelling on with Adventure Canada, the vessel name is the Ocean Endeavour. Please let me know if there are other details you require, and again, so sorry for the delay on our end.

Kind regards,
Gwen Freeze

Dear Gwen,

Thank you for your email.

I have reached out to Dr. Eric Bottos twice, on June 27 and July 4, as we need specific information to proceed with the screening of your project. The NIRB requires details about the specific vessel you will be traveling on with Adventure Canada. This information is crucial because the vessel should have been screened previously.

Could you please provide the details of the vessel? This will help us ensure that all necessary screenings are appropriately associated with your project. Once we have this information, we can send a notice out for public comments.

Thank you for your assistance.

Best regards,
