Dear Mia,

The Qikiqtani Inuit Association (QIA) respectfully submits this correspondence in response to the Nunavut Impact Review Board's (the NIRB) call for comments on Adventure Canada's (the Proponent) 2026 Expeditions - Ocean Nova Project proposal.

QIA reminds the Proponent that any activities on Inuit Owned Lands, such as landings, require a separate filing an application for a land access authorization with QIA. QIA is pleased to note that the Proponent has consistently applied for and received such authorizations over the years. QIA looks forward to continued engagement with Adventures Canada.

QIA would like to thank the NIRB for the continued opportunity to provide comments on project proposals that have potential to impact Inuit in the Qikiqtani region. Please do not hesitate to contact QIA for any clarification.

Nakurmiik,

Assol Kubeisinova
