

NOTICE OF SCREENING OPPORTUNITY FOR PUBLIC COMMENT

NIRB File No.: 25EN080

Project Name: The “Hook Lake” project
Proponent Name: 6106 Resource Ltd
Project Type: Exploration Region: Kivalliq Region
Public Registry: www.nirb.ca Application No.: 150937
Comment Deadline: **January 29, 2026**

PROJECT SCOPE:

The proposed “Hook Lake Project” is located within the Kivalliq region, approximately 140 kilometres (km) from Arviat. The Proponent intends to conduct early-stage mineral exploration to evaluate gold and associated sulphide mineral potential using low-impact geological, geophysical, and drilling methods, while respecting environmental, wildlife, and cultural values and complying with all applicable regulatory requirements. The program is proposed to take place from January 2026 to October 2026. The scope of this proposed project as identified by the NIRB includes the following undertakings, works or activities:

- Geophysical surveys will be non-invasive and scheduled to avoid sensitive wildlife periods, including caribou movement and calving seasons.
- Access will primarily be by aircraft to avoid new road construction, and ground travel will use existing routes where it is possible to reduce land disturbance.
- Fuel will be stored and handled using approved containment measures, and spill prevention and response procedures will be in place at all times.
- All solid, hazardous, and wastewater will be managed according to regulatory requirements and removed from the site for approved disposal.

Please visit the NIRB’s public registry online at the link above and look up NIRB File No.: **25EN080** to access all project information, maps, and public comment forms.

REQUEST FOR COMMENTS

You are invited to provide the NIRB with your comments regarding whether the proposed project is:

- likely to arouse significant public concern and, if so, why;
- likely to cause significant adverse ecosystemic or socio-economic effects and, if so, why;
- likely to cause significant adverse impacts on wildlife habitat or Inuit harvest activities and, if so, why;
- a type where the potential adverse effects are highly predictable and can be prevented/managed appropriately with known technology.

Parties are also invited to recommend any specific mitigation measures they feel would be appropriate, and to bring any other matter of importance related to this project proposal to the NIRB’s attention.

CONTACT INFORMATION

The NIRB has recently launched an updated online public registry, and parties can access project information as well as submit comments directly to the NIRB via www.nirb.ca. Comments can still be submitted directly to the NIRB via email at info@nirb.ca or via fax to **(867) 983-2594**.

If you have any questions or require clarification regarding the proposed project or the NIRB’s screening process, please contact Viren Nasit, Senior Impact Assessment Officer, at (867) 983-4603 or email: vnasit@nirb.ca.
