

NOTICE OF SCREENING OPPORTUNITY FOR PUBLIC COMMENT

NIRB File No.: 25EN084

Project Name: The “Angilak Property” project
Proponent Name: ATHA Energy Corp.
Project Type: Exploration Region: Kivalliq Region
Public Registry: www.nirb.ca Application No.: 150928
Comment Deadline: **January 29, 2026**

PROJECT SCOPE:

The proposed “Angilak Property” project is located within the Kivalliq region, approximately 225 kilometres (km) from Baker Lake. The Proponent intends to advance mineral exploration activities within the project area in Nunavut by collecting geological and drilling data necessary to refine the understanding of mineralization and resource potential. Apart from that Project includes the continued use and expansion of existing exploration infrastructure, such as an established camp, extension of an existing airstrip, and construction of limited exploration trails, to support safe and efficient field operations. The program is proposed to take place from March 2026 to February 2031. The scope of this proposed project as identified by the NIRB includes the following undertakings, works or activities:

- Advanced mineral exploration will include geological mapping, sampling, and exploration drilling using diamond drill rigs and one reverse circulation drill.
- Drill site preparation and access will be done using the proposed exploration trails.
- Diesel and aviation fuel will be stored and used within the existing camp footprint, transitioning to CSA-approved fuel bladders with secondary containment.
- Domestic and drilling water use will comply with existing Nunavut Water Board licence limits.

Please visit the NIRB’s public registry online at the link above and look up NIRB File No.: 25EN084 to access all project information, maps, and public comment forms.

REQUEST FOR COMMENTS

You are invited to provide the NIRB with your comments regarding whether the proposed project is:

- likely to arouse significant public concern and, if so, why;
- likely to cause significant adverse ecosystemic or socio-economic effects and, if so, why;
- likely to cause significant adverse impacts on wildlife habitat or Inuit harvest activities and, if so, why;
- a type where the potential adverse effects are highly predictable and can be prevented/managed appropriately with known technology.

Parties are also invited to recommend any specific mitigation measures they feel would be appropriate, and to bring any other matter of importance related to this project proposal to the NIRB’s attention.

CONTACT INFORMATION

The NIRB has recently launched an updated online public registry, and parties can access project information as well as submit comments directly to the NIRB via www.nirb.ca. Comments can still be submitted directly to the NIRB via email at info@nirb.ca or via fax to **(867) 983-2594**.

If you have any questions or require clarification regarding the proposed project or the NIRB’s screening process, please contact Viren Nasit, Senior Impact Assessment Officer at (867)983-4604 or vnasit@nirb.ca.
