Déchets

Gestion des déchets

Activités du projet	Type des déchets	Quantité prévue	Méthode d'élimination	Procédures de traitement supplémentaires
Drilling	Déchet dangereux	less then 1 cubic meter water per day	Create depression and move waste water to cover with earth	Pull water with sump pump inside drill hole
Waste disposal	Eaux usées (matières de vidange)	5 gallons	Create depression, pour and cover with earth	None

Répercussions environnementales :

no environment impact as waste water properly moved to depression and cover with earth afterwards manually with shovel. Spill Plan in place during the exploration phase.
