To Fisheries and Oceans Canada,

On behalf of the Aqigiq Hunters and Trappers Organization, we support the Arctic Coast project to:

- 1) Conduct summer fieldwork at sites near Chesterfield Inlet (selected by the AHTO) to monitor the coastal habitat. Including gillnetting for fish, collecting bottom samples, data from the water and underwater video
- 2) DFO staff to travel to Chesterfield Inlet in July 2025 (date to be determined) to meet with the HTO and provide research updates.
