

NIRB Project Application 126400

Comments posted by Holly Poklitar on April 7, 2026

The Nunavut Impact Review Board (NIRB) has a mandate to protect the integrity of the ecosystem for the existing and future residents of Nunavut. To assess the environmental and socio-economic impacts of the project proposal, NIRB would like to hear your concerns, comments and suggestions about the following project proposal application:

Indicate your concerns about the project proposal below:

- Other: Regulatory

Please describe the concerns indicated above:

The proponent proposes, among other activities, water withdrawal for water consumption. Some methods of water withdrawal from navigable waterways are subject to the Canadian Navigable Waters Act (CNWA) and may require an approval under the CNWA. The proposed method of water withdrawal for this project (buckets and/or hand-held water bladders) does not constitute a "work" and therefore will not require approval under the CNWA.

Do you have any suggestions or recommendations for this application?

N/A

Do you support the project proposal?: Yes
