

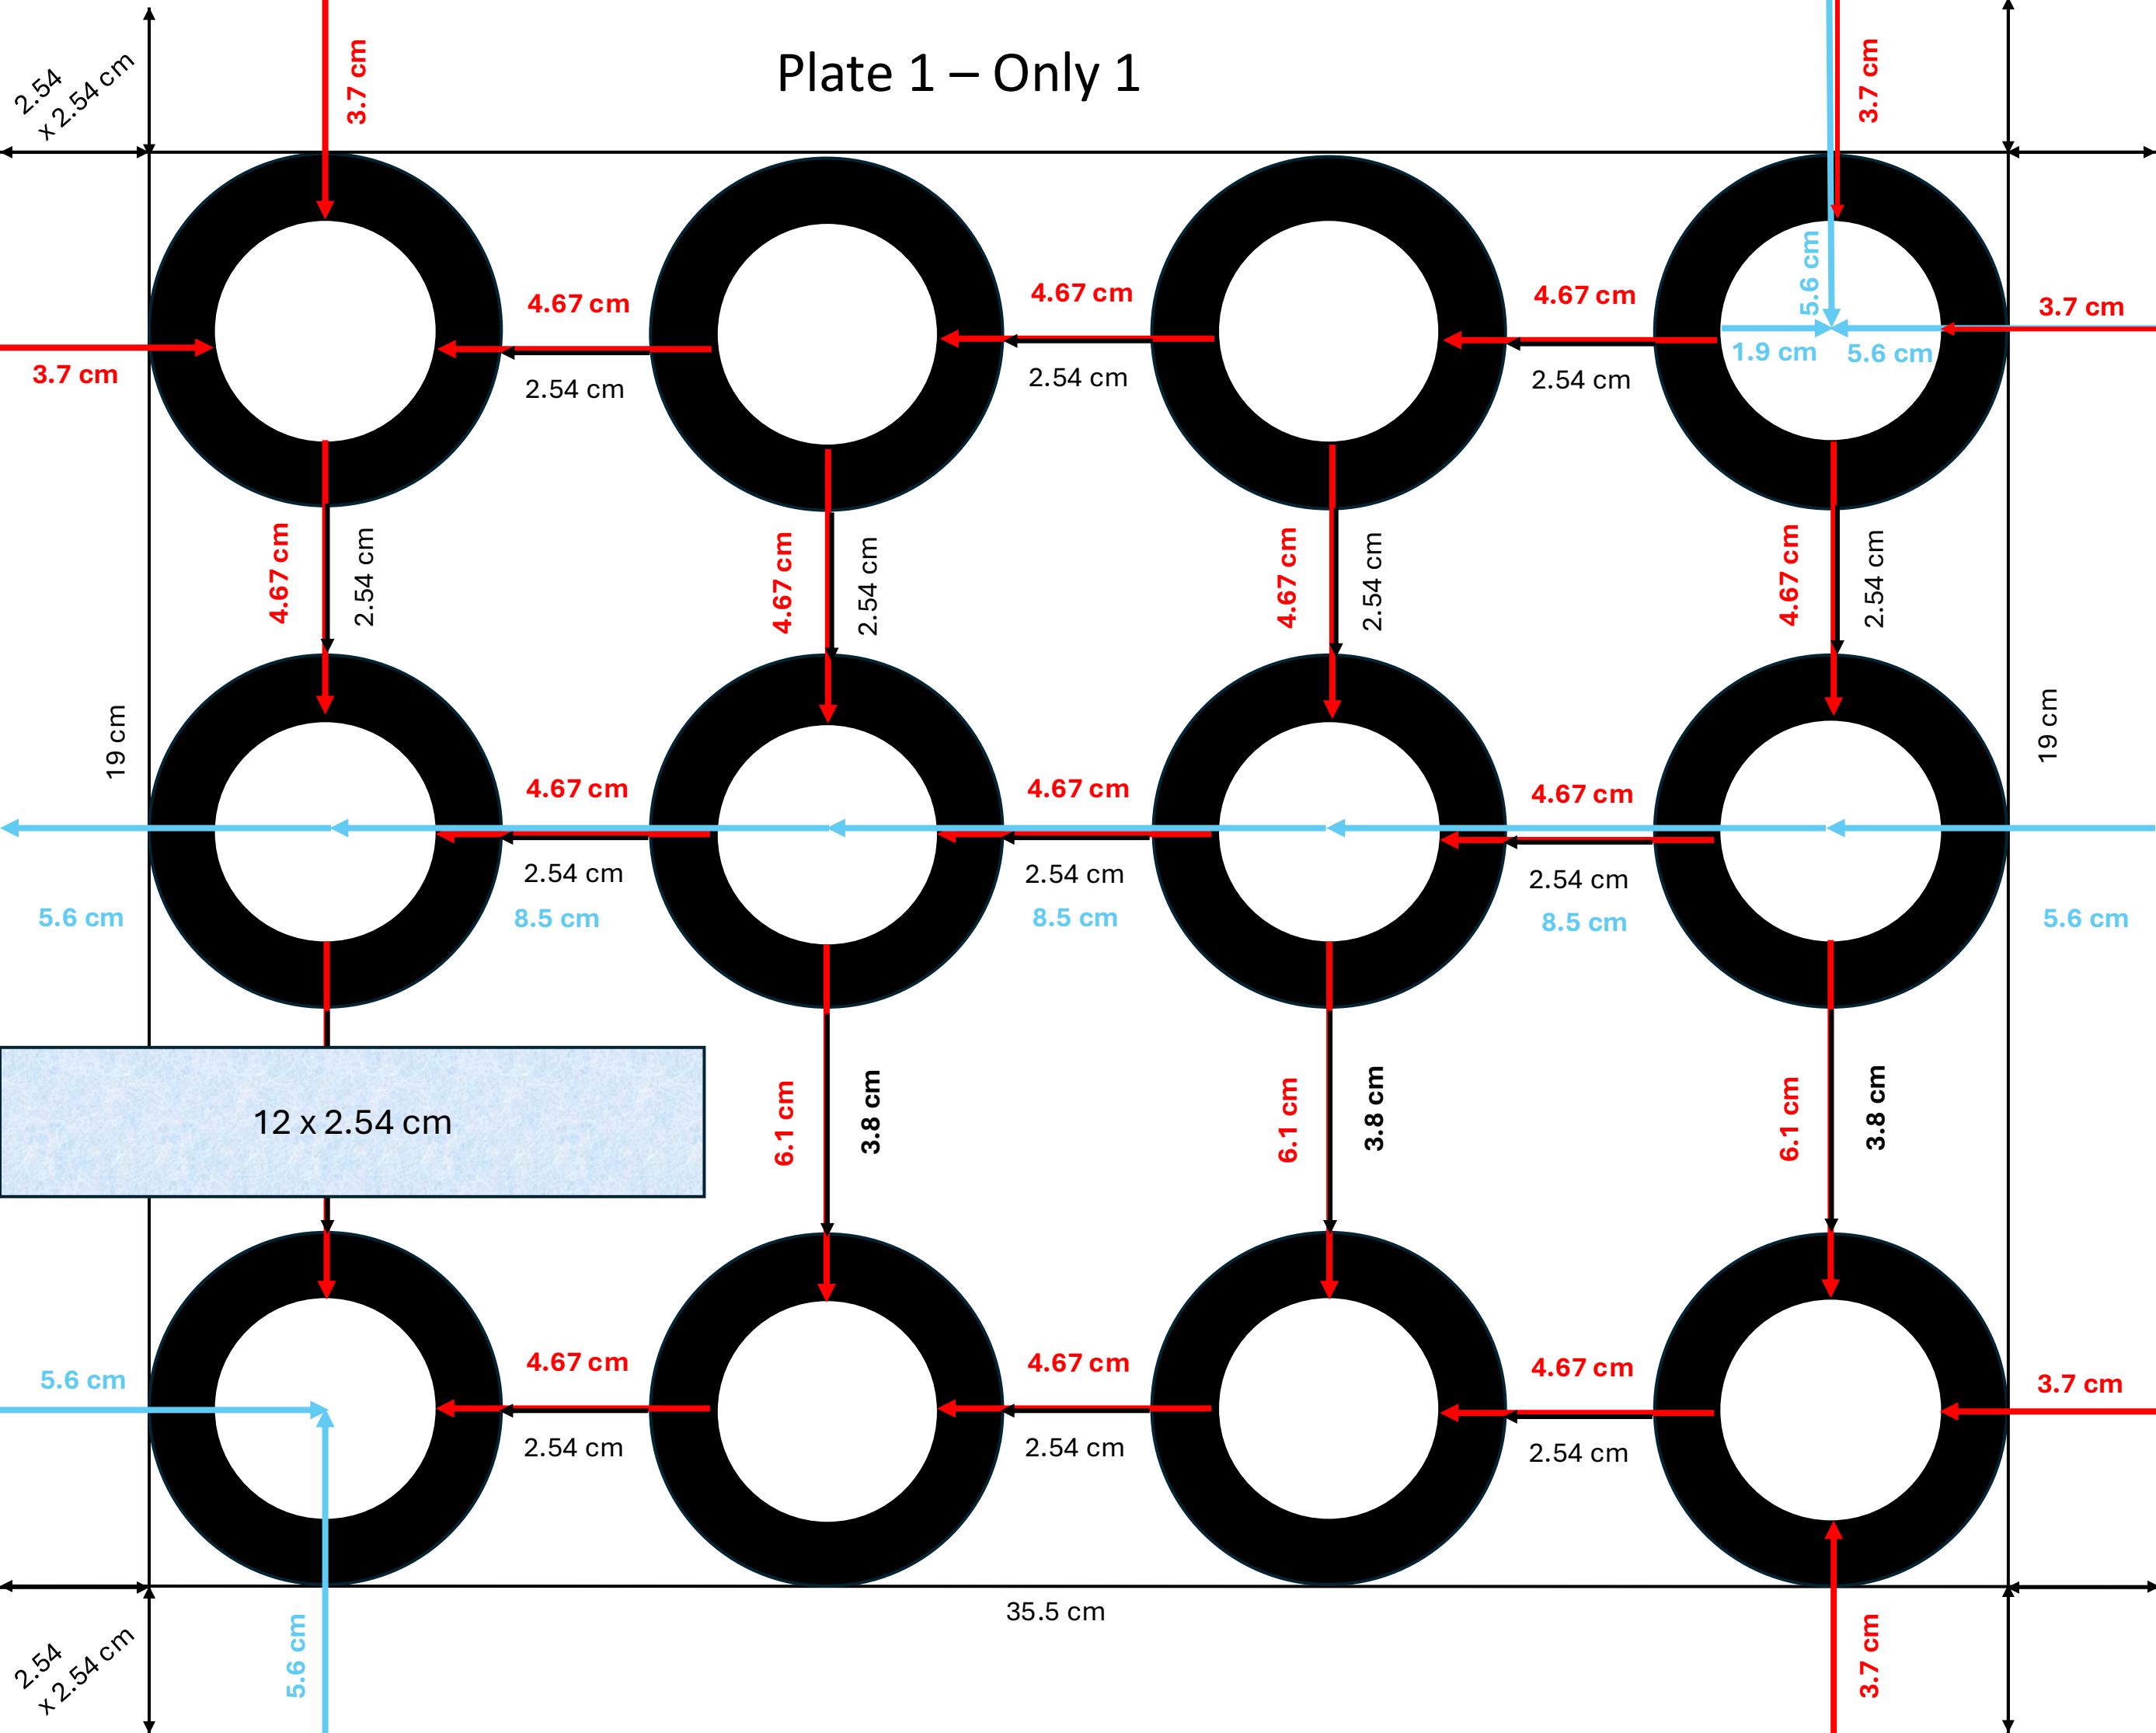

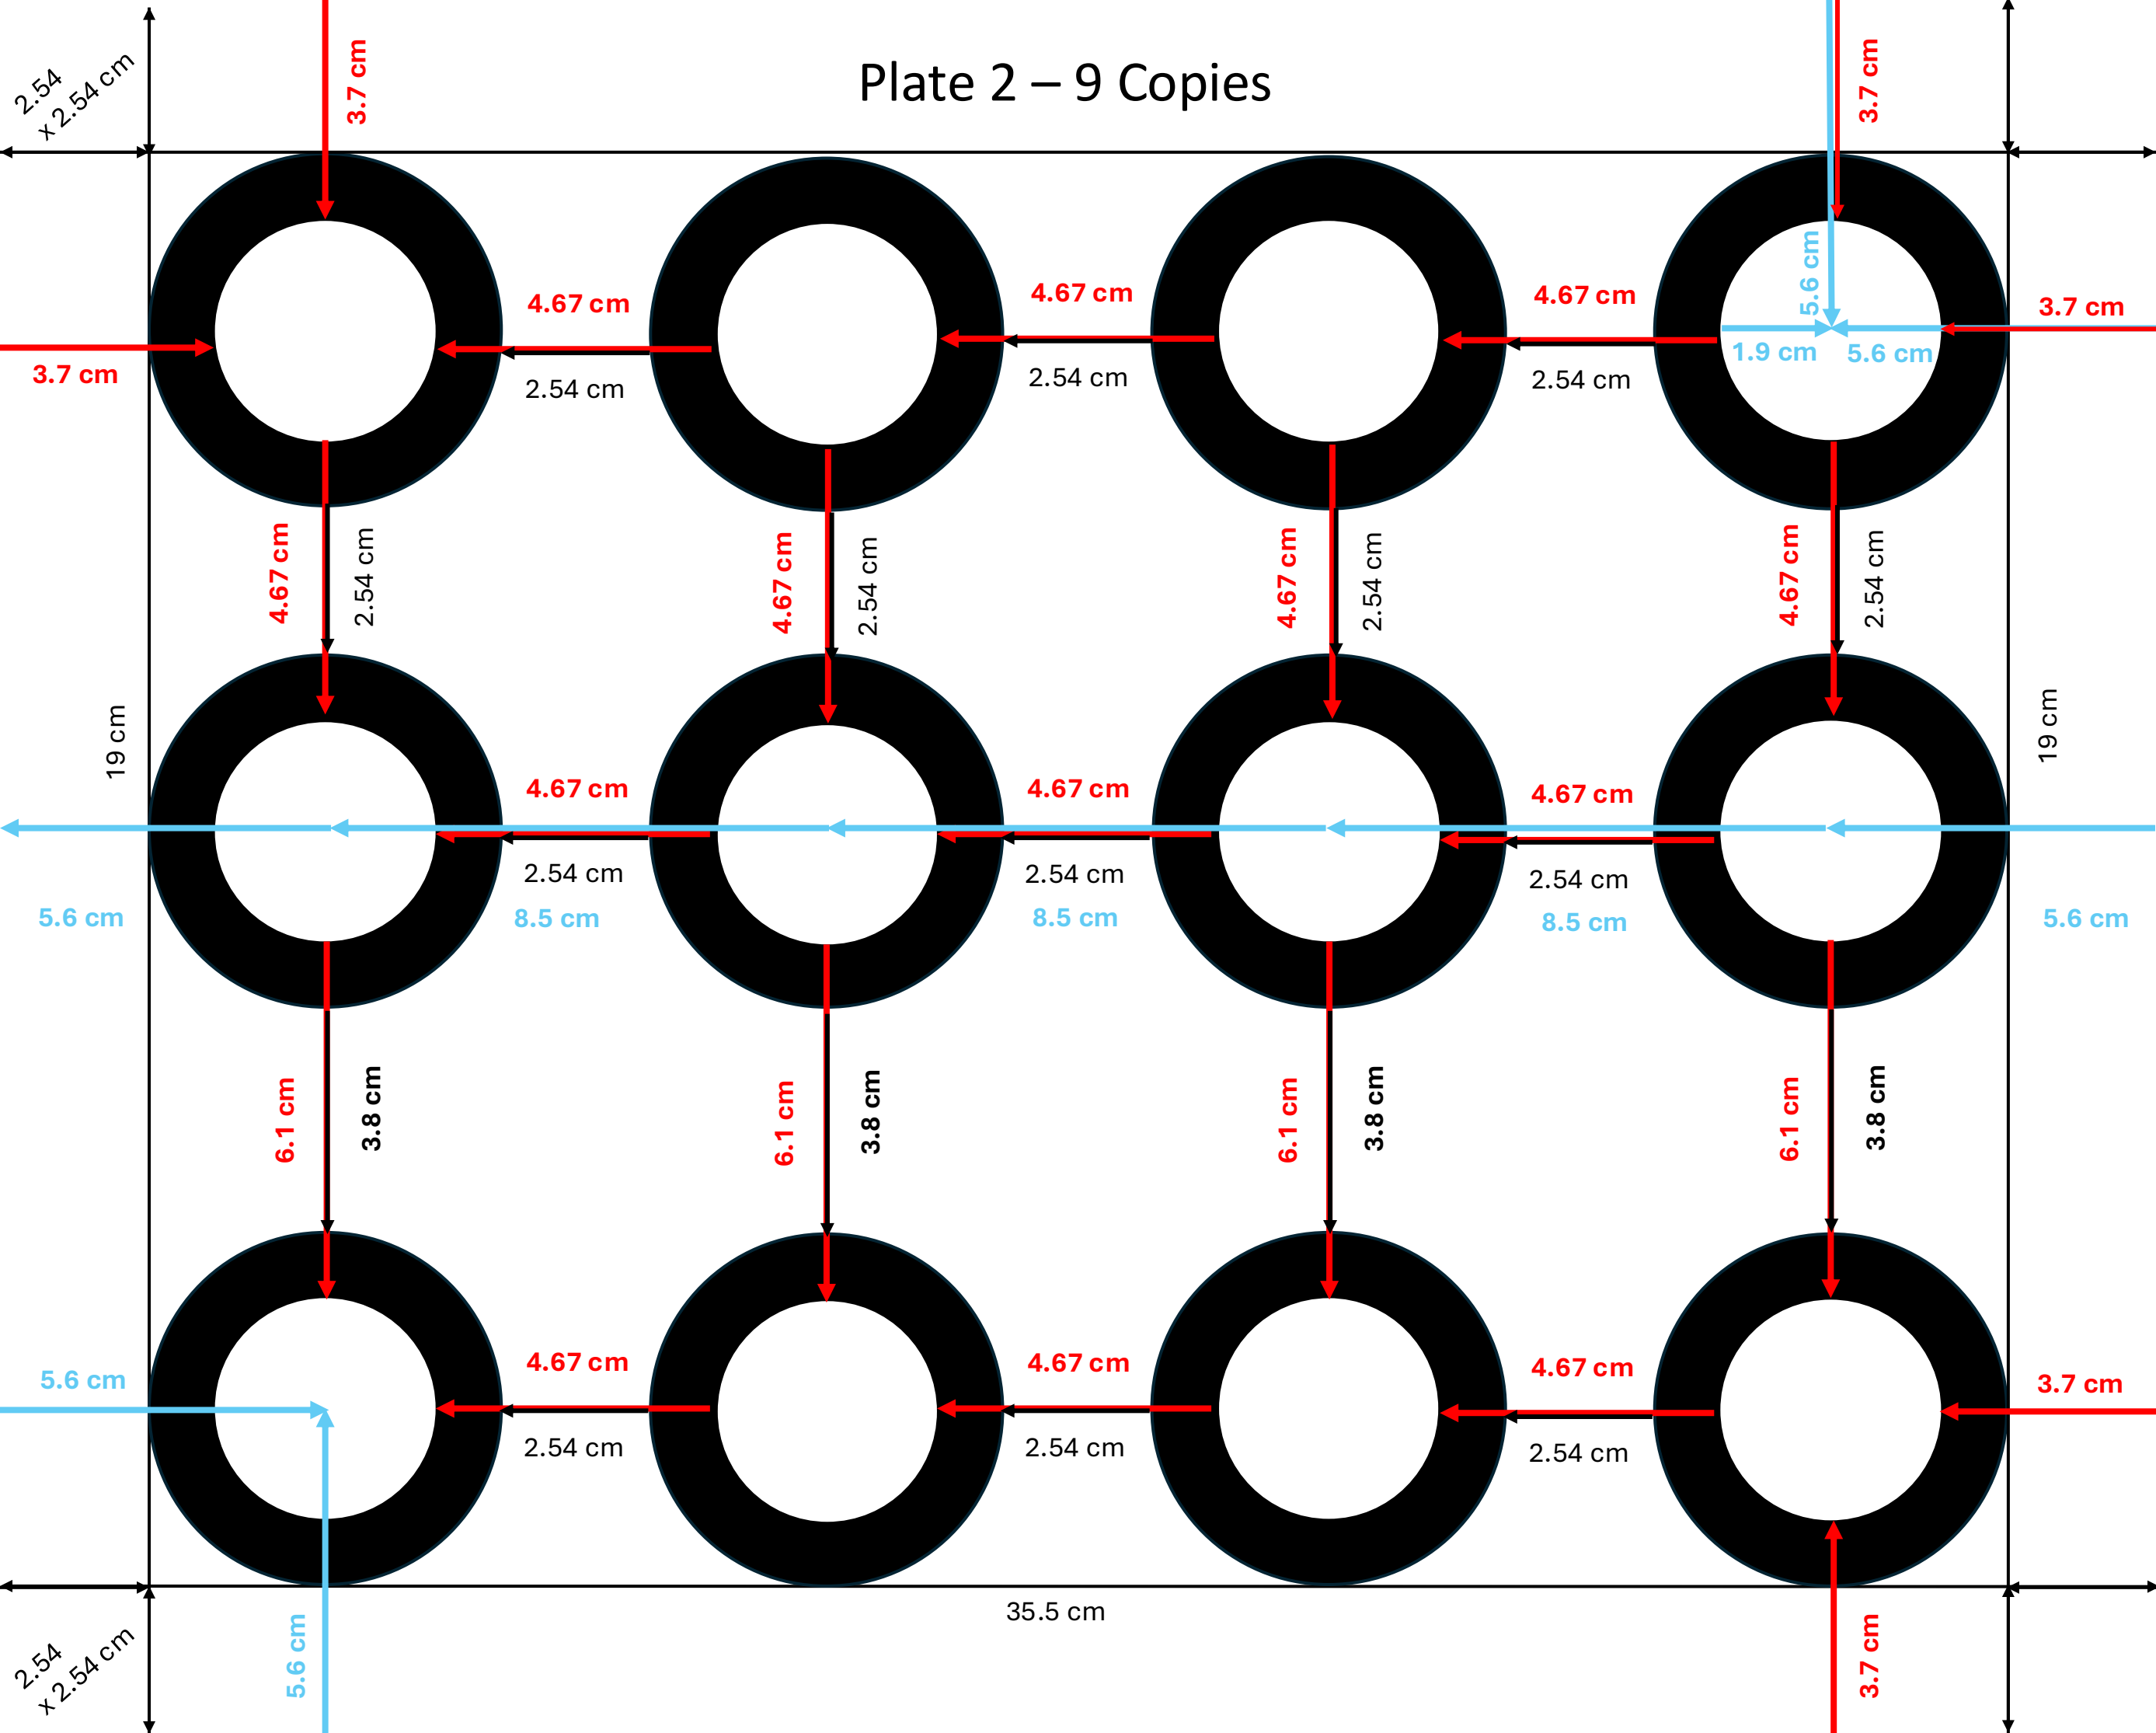

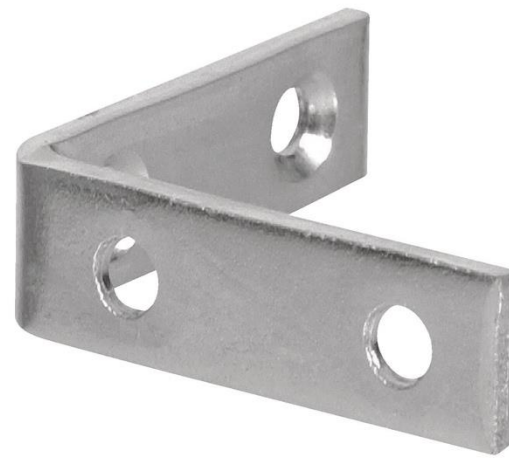

Plate 2 – 9 Copies

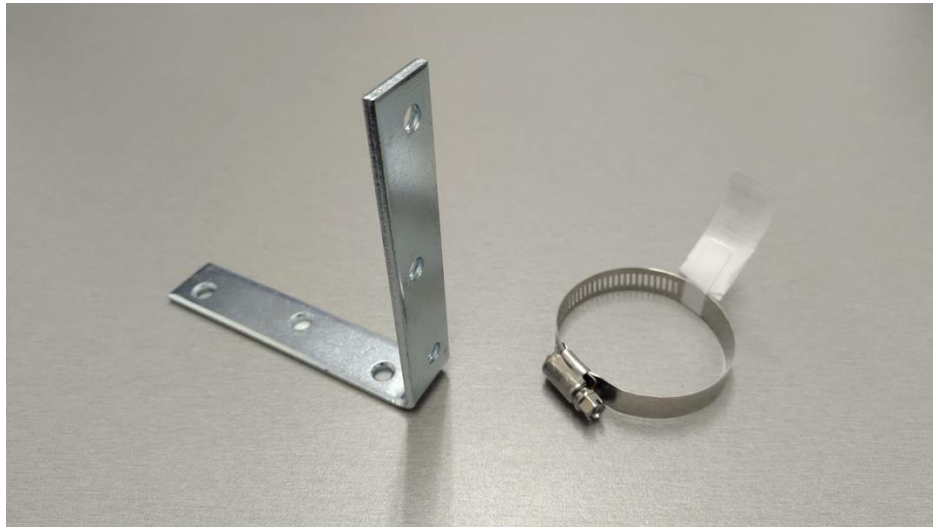

Corner Brace 12 x 2.54 cm

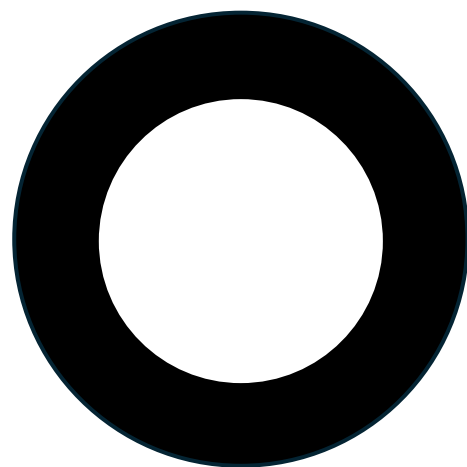

This corner brace will be bolted to the surface of the plate eventually

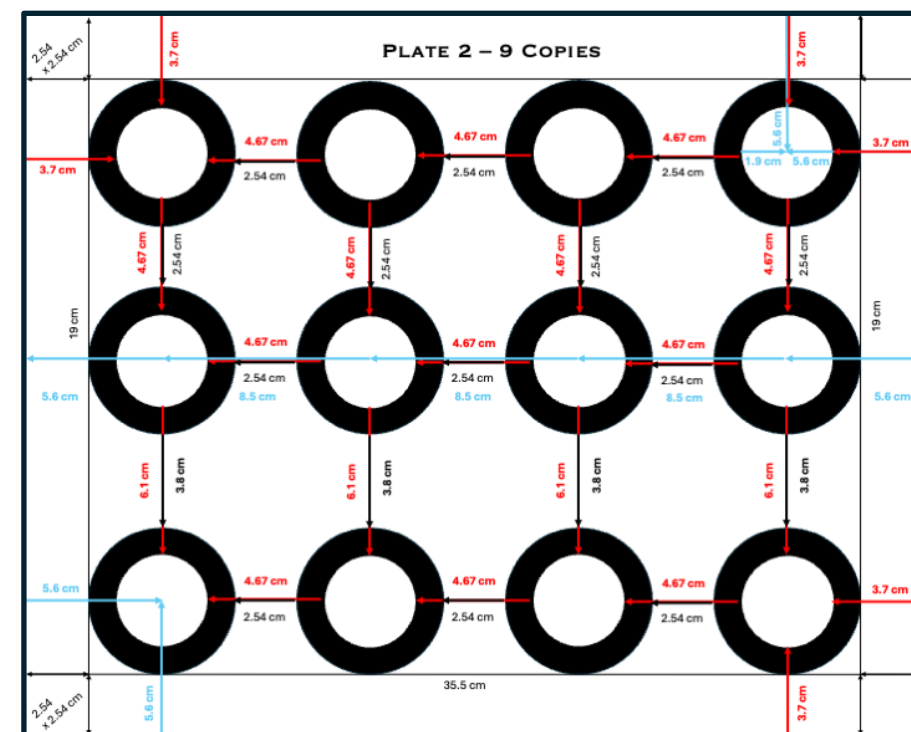

Material: ideally it should be made from stainless steel A4

These circular stainless-steel hose clamps (1 – 2 " diameter) will need to be attached to the corner brace with bolts

Male trap adapter 1 ½ " diameter
Needs to be cut out with 1 ½ " thread

Platform should be ½ to ¾ inch thick PVC materials (polycarbon, HDP or Deloron sheets)

Black lines show space between the outer most edge of the trap adapter

Red lines show space between the edge of the thread of trap adapter

Blue lines show space between the center of trap adapters or edge of platform

Inspired by these platform setups
